Cavaletti Moov

Cavaletti Moov

Cavaletti Moov is a modern office chair designed for dynamic environments. It is a perfect choice for those who need a chair that can adapt to their needs. It is always available in the color of your choice.

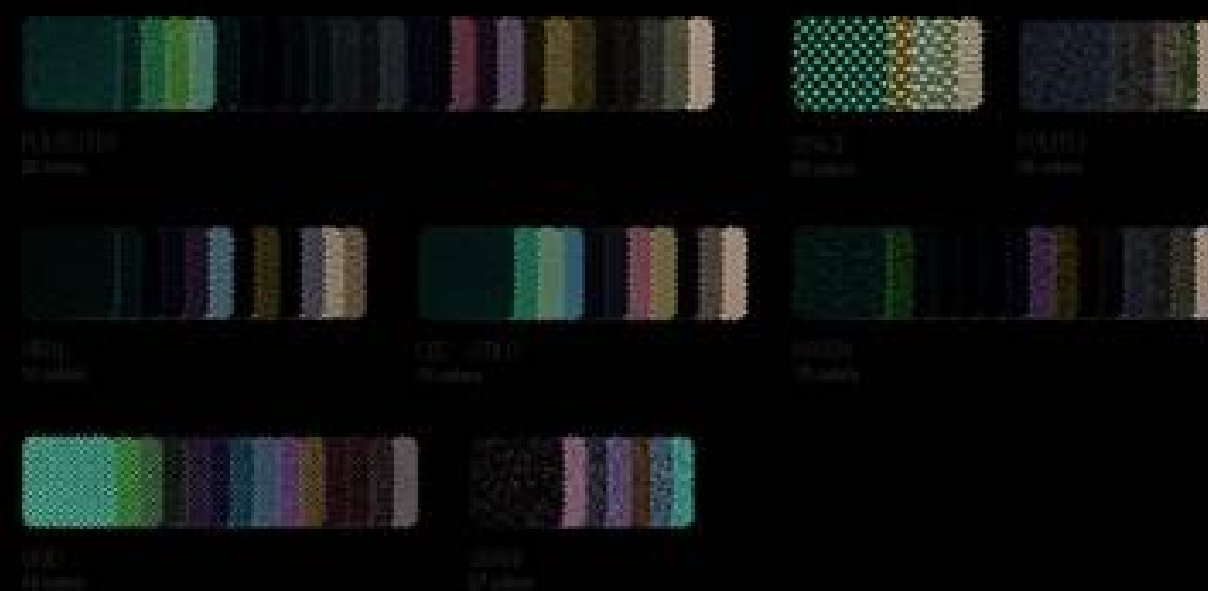

CUSTOMIZE AT WILL

Light and flexible in configurations, it allows to specify the seats both for environments and heavy use for operating environments. The two standard color options, the six seating systems and 34 eight mesh color options allow Concept One to complement the project environment, from the more formal to the more laid-back.
