MUSEPOD

We want an open space in cubicle,
but in open plans,
we want a corner for privacy.

What we looking for is the "balance".

MUSEPOD is the balance we bring to workspace,
but it is far more than just "balance".

ORIGINAL DESIGN

DESIGNER

YANG RONGJIE

Graduated from University of Rome with Master in Industrial Design, Rongjie's design was exhibited in multiple international expos such as **SALONE INTERNAZIONALE DEL MOBILE DI MILANO**. Her representative design **POP** was nominated for the **imm Cologne 2019** pure talent contest, and made its debut to the exhibition the same year.

Set foot to 27 countries and 78 cities, Rongjie is constantly inspired by history, culture and landscape, and express the insights in the language of design.

MUSEPoD

MISSION: Create cost-efficient and sustainable solutions for users.

VISION: To be the leading producer of digital compartment rooms.

We invented MUSEPoD, a fast-assembled, modular compartment room system. Our team focus on innovative design concepts. MUSEPoD was patented for 1 Invention and many Utility Models Appearance Designs patents. MUSEPoD also provide its users with a wide range of solutions such as built-in reservation system, office data analysis, and smart control system.

FLOURISHING WORKSPACE

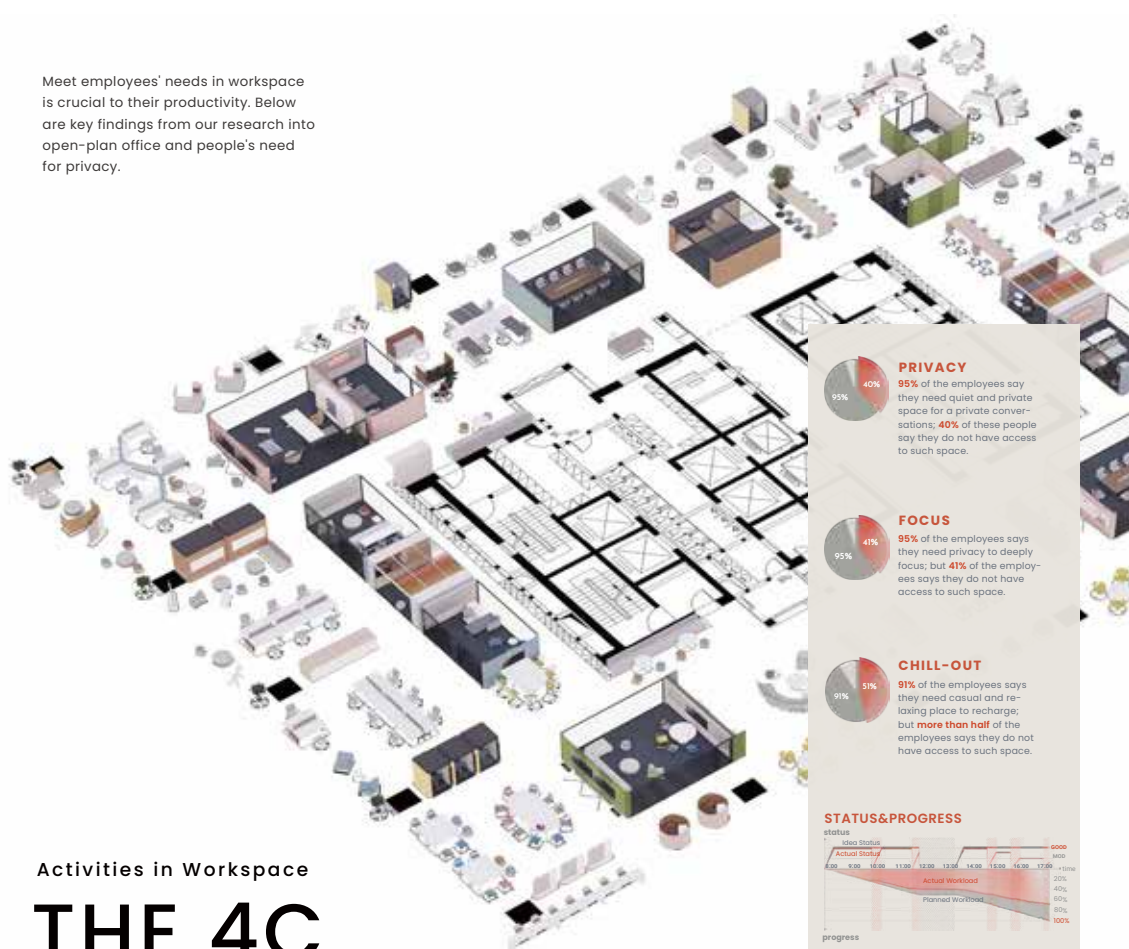

An energetic and engaging office empowers both individuals and the organization, making them more proactive and productive. In such workspace, "Monday feels great!"

From our research into workspace design, we found there are 4 basic activities in workspace, and called them the "4C": Concentrate, Collaborate, Chillout, and Club. when people feel supported in all four activities in a workspace, they feel more inspired, productive, communicative and produce positive emotions. Therefore our office should empower all 4 activities, and when this is achieved, the workspace starts to flourish.

Meet employees' needs in workspace is crucial to their productivity. Below are key findings from our research into open-plan office and people's need for privacy.

Activities in Workspace

THE 4C

PRIVACY

95% of the employees say they need quiet and private space for a private conversation; 40% of these people say they do not have access to such space.

FOCUS

95% of the employees says they need privacy to deeply focus; but 41% of the employees says they do not have access to such space.

CHILL-OUT

91% of the employees says they need casual and relaxing place to recharge; but more than half of the employees says they do not have access to such space.

STATUS&PROGRESS

CONCENTRATE

Deeply focus, distractions only allowed upon permission.

COLLABORATE

Sharing and creating thoughts, be fully immersed in innovations.

CHILL-OUT

Recharge with relaxing moments to better engage with your work.

CLUB

Initiate casual interactions, blurring the lines of work and social life.

4C

OPEN-PLANS

CONCENTRATE

COLLABORATE

CHILL-OUT

CLUB

4C in OPEN-PLAN

In open-plan office, distraction are often overloaded. It is difficult to focus because people's workflow is constantly interfered, impairing their productivity and creativities. It further leads to anxiety and pressure that impairs employees psychological and cognitive wellbeing.

Keep out distractions,
gain control over your space.
Empower all activities,
empower all inspirations.
MUSEPoD is the space for YOU.

CUSTOM - FIT MODULAR DESIGN

Different organizations are powered by different set of activities, and thus MUSEPoD has all diverse modules to supports all possibilities. Our team brought forth a thorough modular system for you to customize size, color, materials and functionalities of your space, guarantee an one-of-a-kind solution to each space we create.

CUSTOM STURCTURE

MUSEPoD uses standardized modules to support space design with modular fit-out. MUSEPoD products are all composed with 6 modules: top, bottom, wall, and door. Easy assembly system allows easy change in size, colors and materials of the space, bringing in endless possibilities under fast changing needs.

• Modular Design

1-hour Rapid Installation •

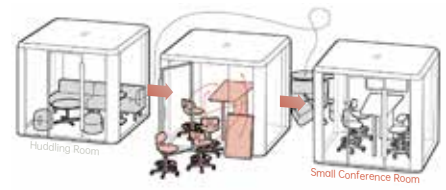

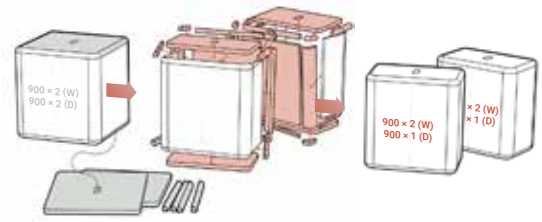

CUSTOM SIZE

REVALUING ASSETS

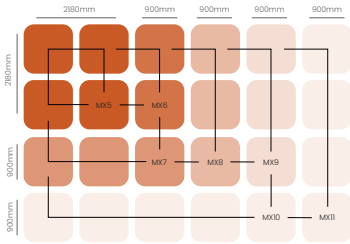

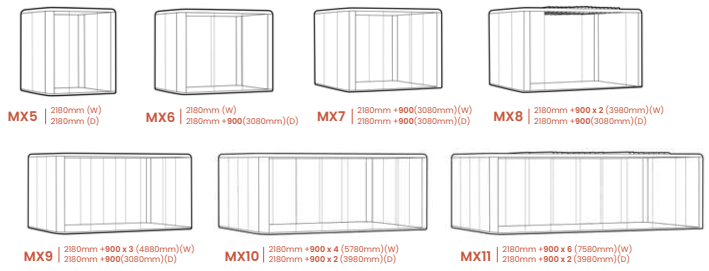

Contexts are constantly shifting in the era of information technology, so are organizations. Space planning responds in accordance to the change in organizational structure. With modular-based installation, MUSEPoD is a powerful tool help to reshape your workspace, avoiding sink cost and budget spent on traditional constructions, maintaining values of organization's fixed assets.

Easy Assembly

Easy Resizing

Easy Customize

*All additional modules are measured 900mm

RESIZING

With MUSEPoD, size is flexible, so is your space. Modular-fit intallation makes it easy to resize your space and support the changing needs for space functionalities, saving cost for organizations in times of change.

FUNCTIONALITY

Transformation in organization structure change the way people interact. New ways of collaboration requires different functionalities from workspace. MUSEPoD offers renew and recyclable service to support the change in space functions.

MATERIALS

MUSEPoD employs all-recyclable materials and contain no formaldehyde content. Eco-friendly materials also consider the health concerns of the users. Panel surfaces are substitutable among modules, making the material usage more sustainable in the long term.

CUSTOM FUNCTION

❶ Hardware Options: Conference System, Bluetooth Speaker

❷ Function Panels: Pegboard, whiteboard, Corkboard, Needleboard

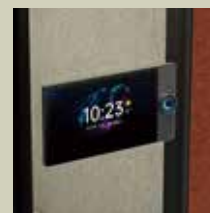

❸ Conference table or bar table

MUSEPoD offers endless solutions to your space. By combining different materials and colors with add-on functions, the space is fully personalized to each of our users.

❹ Multi-sizing modular sofa

❺ Conference system: Reservations and smart control system

❻ Multi-function hook

CUSTOM TEXTURE

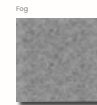

From fabric to coated steel, MUSEPoD offers multiple inner and outer texture options to stylize the space.

• MFC

• Composite Board

• Felt

• Glass

• Fabric

• Spray-coated Steel

More than just workspace

MUSEPoD empowers any space you think of.

EDUCATION

READING ROOM

Be as loud as you want
in a quiet place.

APPLICATIONS

MUSEPoD empowers education space design and bring innovative education methodologies to life.

MUSEPoD_concentrate
 Stay focused and productive in concentrate rooms in open learning space.

MUSEPoD_study
 Built in video conference system for a hybrid or online semester.

MUSEPoD_advising
 A comfortable and safe enclosed room for consulting sessions or other small collaborations.

MUSEPoD_spread
 Make online lecture more true-to-life, and build trust more easily.

MUSEPoD_collaborate
 A space for members in group learning projects to focus on brainstorming, negotiating and innovating.

MUSEPoD_tutoring
 A space dedicated for two in advising sessions.

DOMESTIC REHEARSAL ROOM

- ■
- With build-in bluetooth speaker

APPLICATIONS

- ■

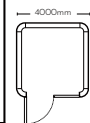

Music comes a long way before it becomes music. Rehearsal time records the trail of practice but at the same time gets in the way of quiet space of others. A MUSEPoD at home or in public space allows you a corner weaving music to become real masterpiece.

MUSEPoD_solo
A small-scale solo room for households rehearsal.

MUSEPoD_chamber music
For small-to-medium size rehearsal.

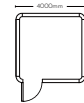

MUSEPoD_band
For more diverse scenarios. Even rock bands can be fully immersed here.

APPLICATIONS

COVID-19 is propelling medical space reform to accommodate medical needs in the post-pandemic time. Needs and emergent situations will be more difficult to estimate, and thus flexibility is the crucial to post-pandemic medical sites. MUSEPoD will propels this reform with its powerful spacial abilities.

MUSEPoD_ *inpatient*

Temporary inpatient room accommodates overloaded medical demands.

MUSEPoD_ *diagnose*

Diagnose rooms alleviates crowded reservation waiting space.

APPLICATIONS

MUSEPoD also creates privacy within public space for a moment of escape from the stress of being surrounded by people and things.

MUSEPoD _peace
Shut out stress and tensions.

MUSEPoD _relax
Some comfort and entertainments
before boarding.

MUSEPoD _hysteria
Stress releasing pillow fight.

MUSEPoD _nursery
Anytime and anywhere for moms.

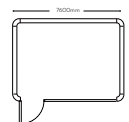

MORE

MUSEPoD *_combat*
Be fully immersed in esports

MUSEPoD *_on-the-go*
A temporary office for "people on air"

MUSEPoD *_lecture*
Make sure lectures can be held anytime
anywhere, indoor or outdoor

MORE APPLICATIONS

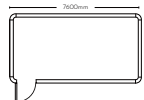

Education, medical, and music are still far from enough to define MUSEPoD. MUSEPoD bring in all possibilities in space and interactions.

MUSEPoD_livestream

A livestream to achieve the best acoustic effect.

MUSEPoD_pop-up store

Offering solutions for large-scale commercial space to rapidly achieve temporary space planning. Using recyclable modules and panels to avoid construction waste and achieve most cost-efficient result.
