MX-9

MX-10

MX-11

A modern office interior with glass partitions, plants, and people working. The office has a multi-level design with a rooftop garden area. People are seen working at desks, in a meeting room, and in a lounge area. The office is well-lit with natural light from large windows.

5 MAJOR ADVANTAGES OF THE PRODUCT

**Modular
Design**

**Noise
Reduction**

Sustainability

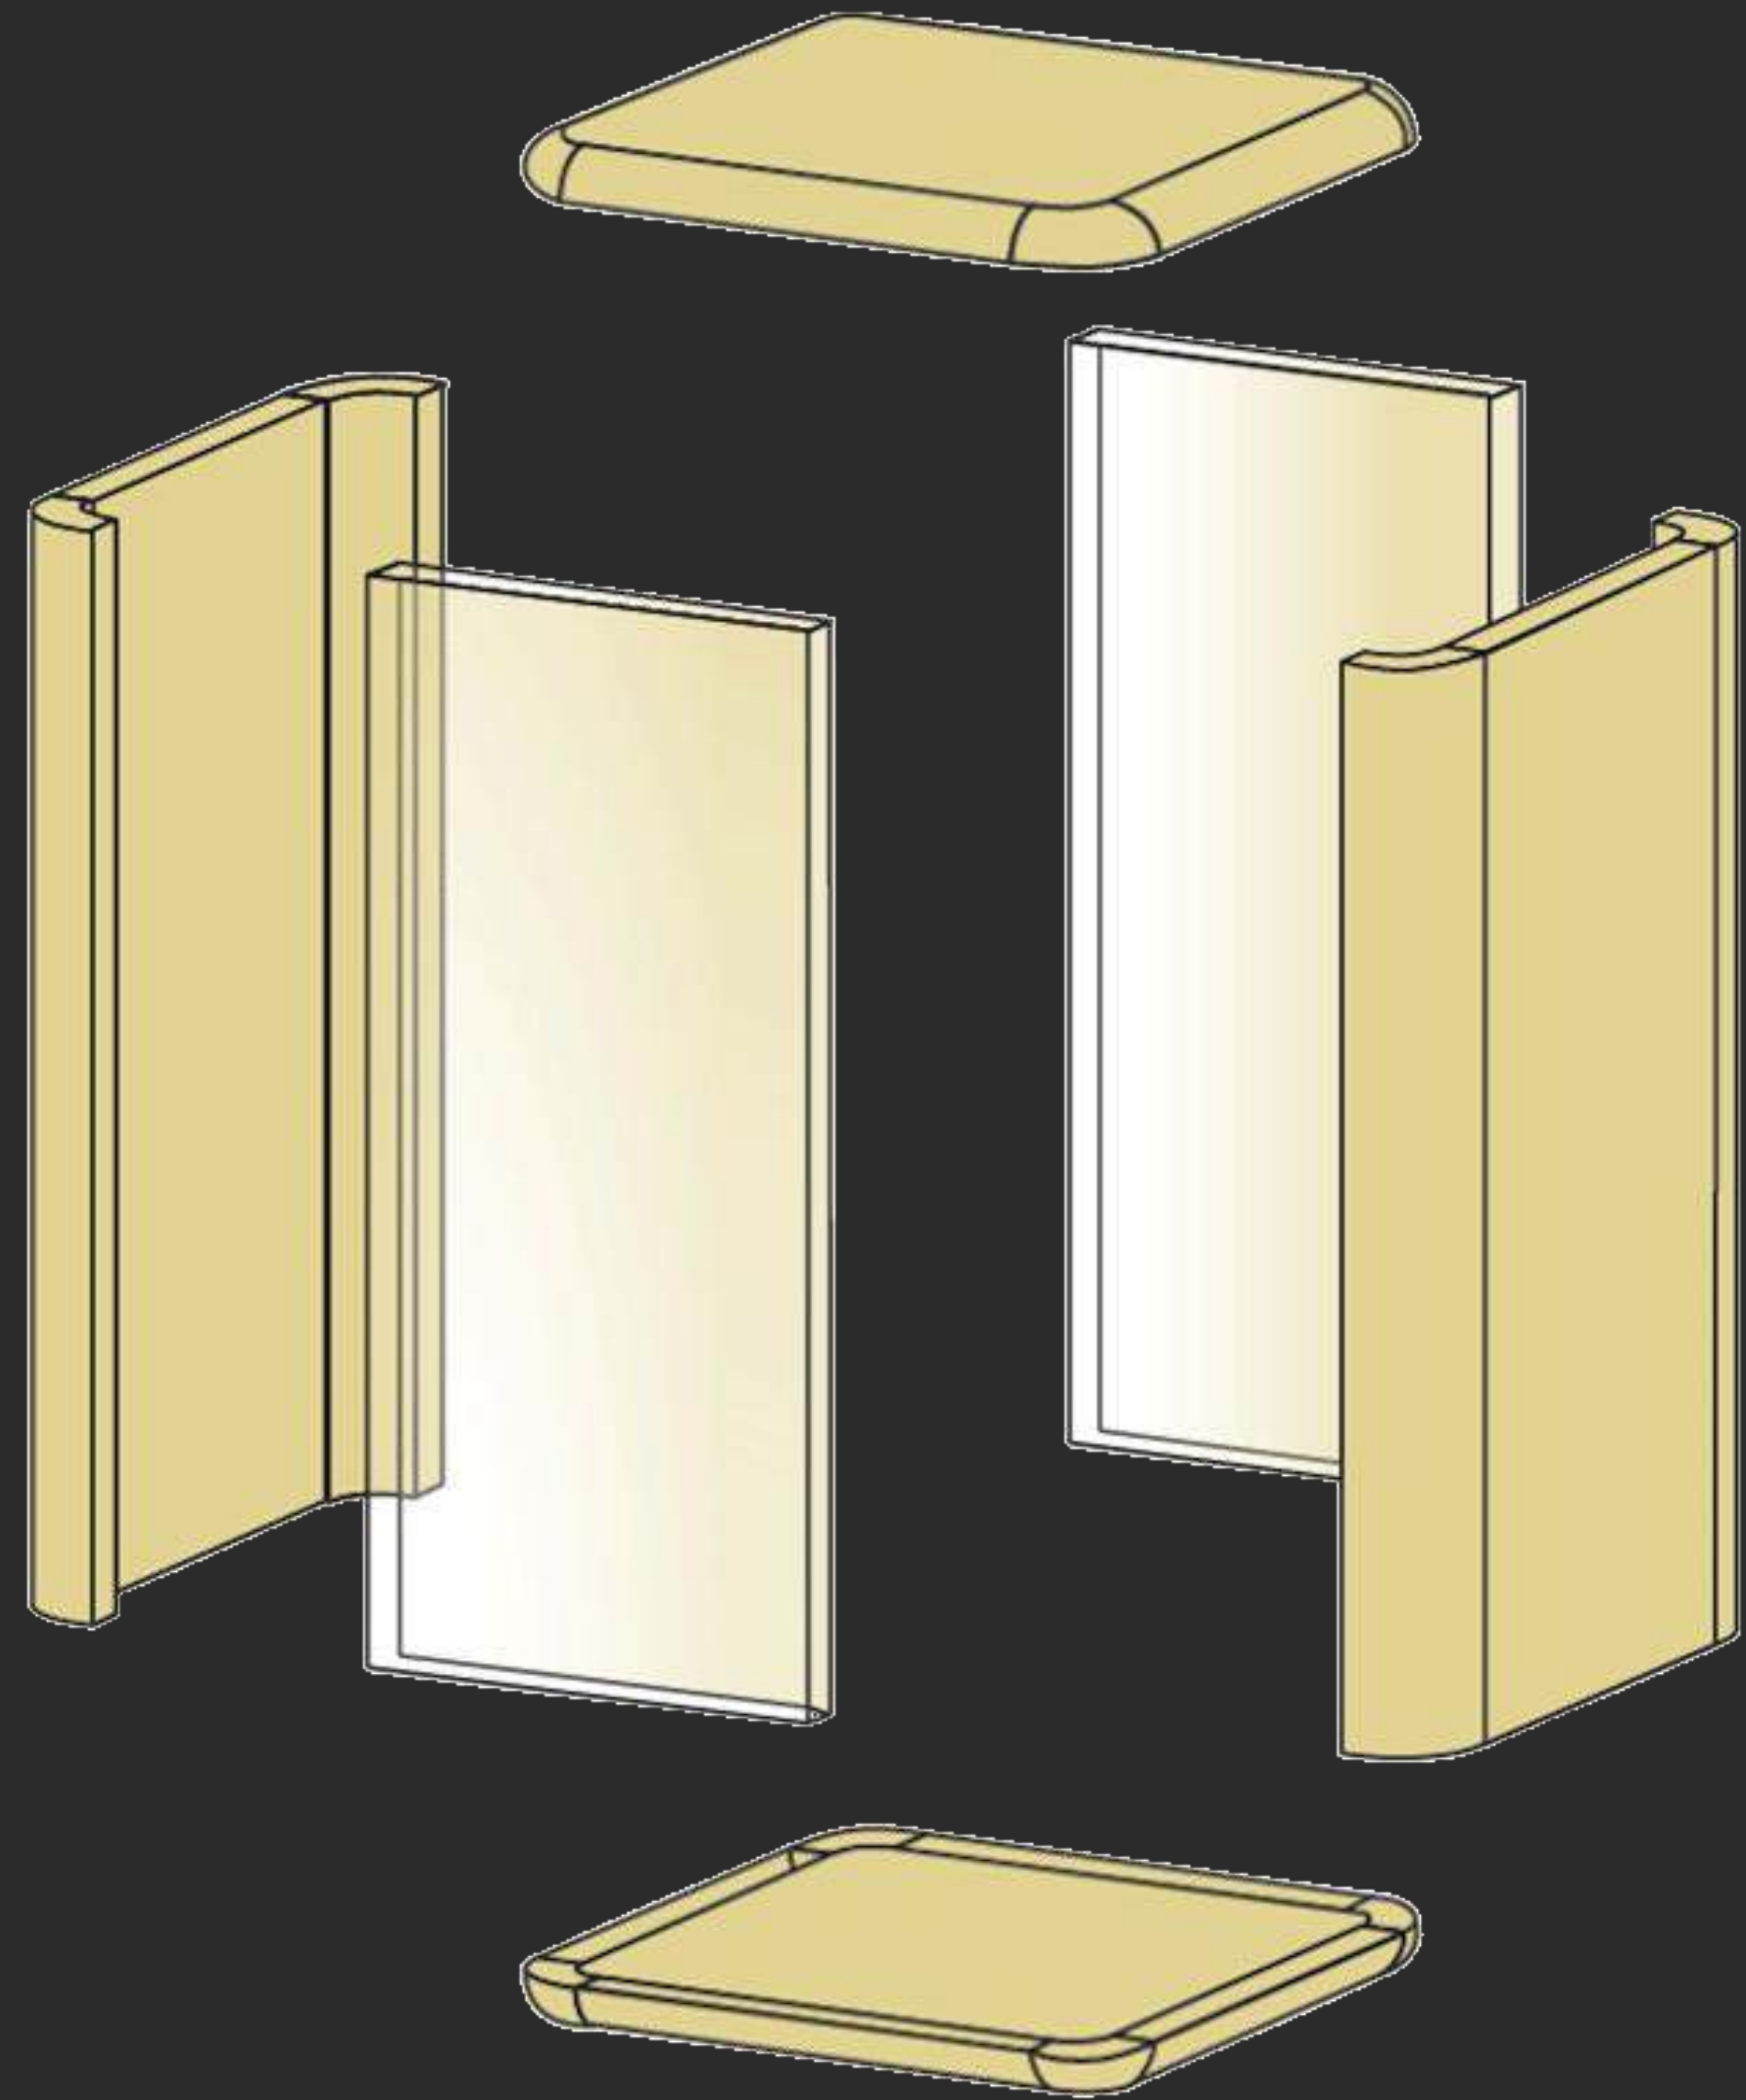

**Optimal
Ventilation**

**Humanized
Design**

.....• Product advantage 1 – Modular Design

Modular for fast assembly

- Six components 1 hour assembly
- Patented quick-assembly connector
- Universal Compatibility – Every component seamlessly integrates across MD, and MX models, allowing for flexible combinations and upgrades.

Product Advantage 2 –
Noise Reduction

sound REDUCTION

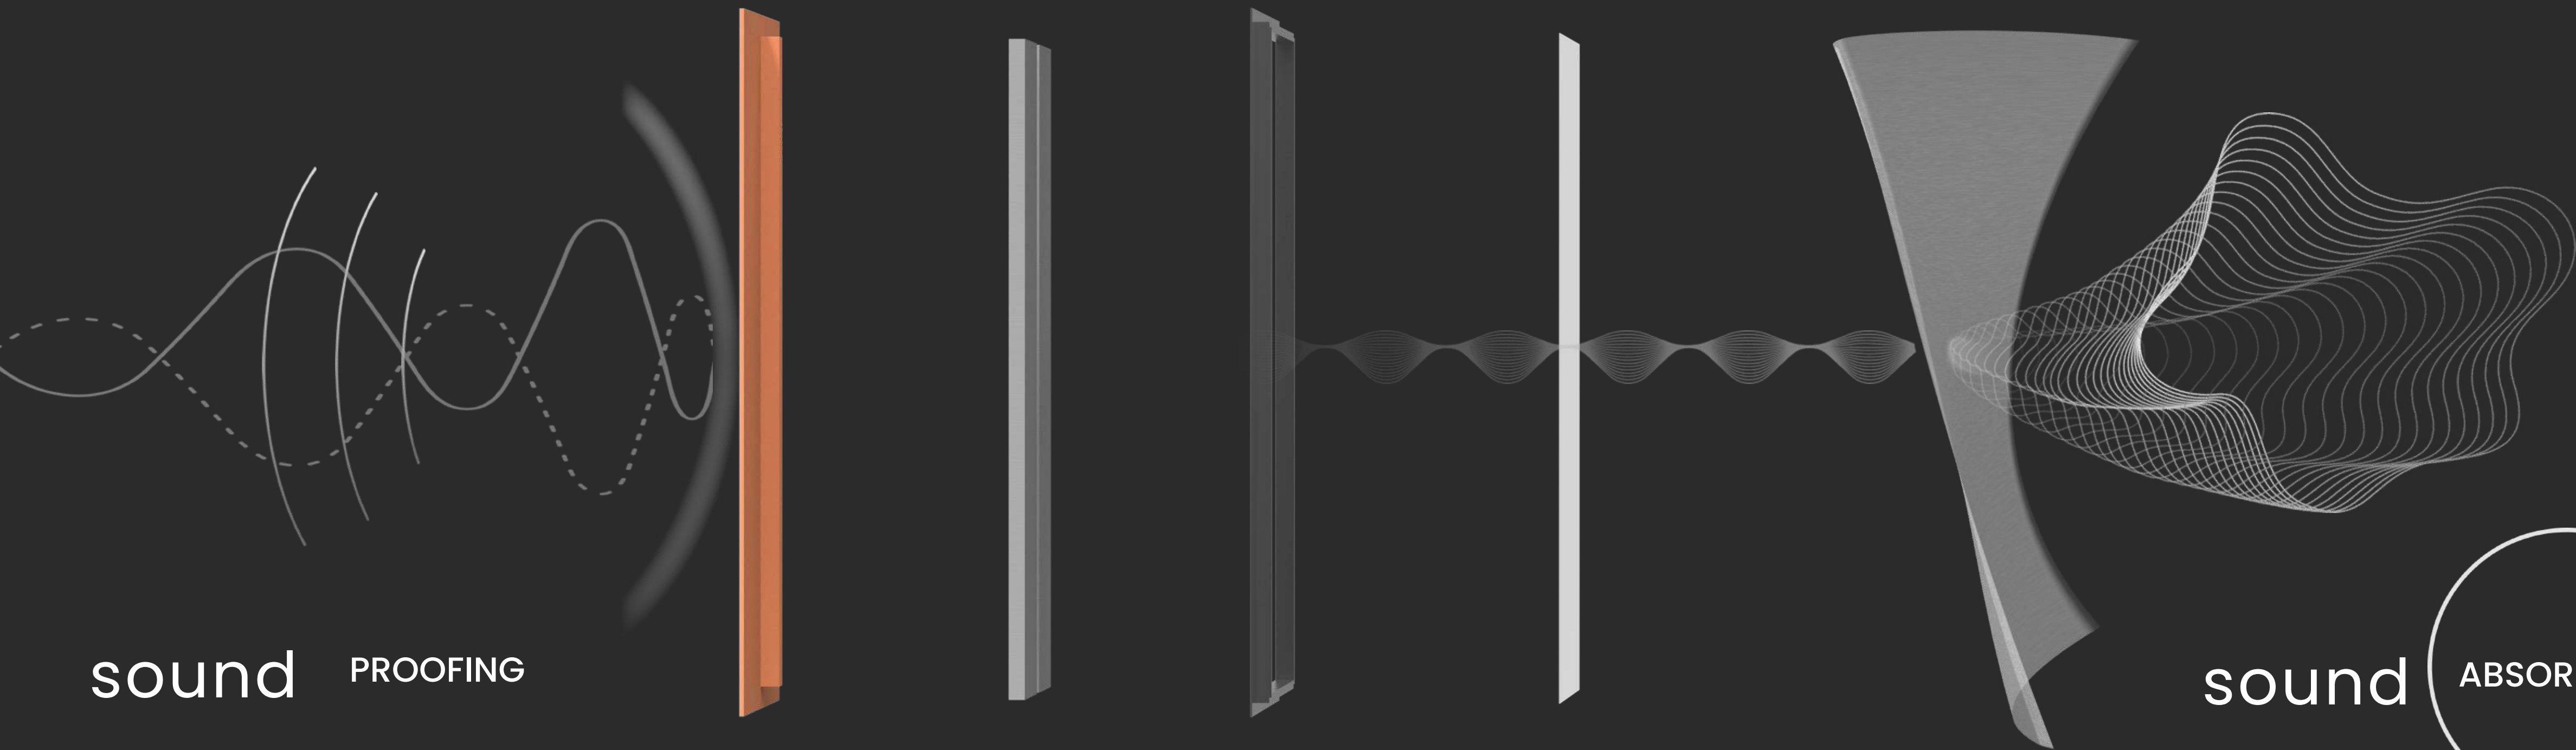

Steel panel

Acoustic
Package

Aviation 6063
aluminum alloy

Polyester fiber sound
insulation panels

Polyester fiber acoustic panel
+ wool-like top layer

Noise reduction:
WAll 45 dB; DS,A 30.3dB

Product advantage 3 – Optimal ventilation

Dual air circulation system

- Double air supply and double exhaust
- 1.5 minutes indoor circulation

1.63/m³ | 100,000h

Ventilation volume
per minute

Non-combustible
ultra-quiet exhaust fan

Product advantage 4– Humanized design

Functional configuration of furniture

MD DUO PLUS Features

Smart Features

Ergonomic furniture

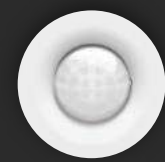

Magnetic Door Lock

Adjustable soft light source

Advanced ventilation system

Superior Sound Insulation

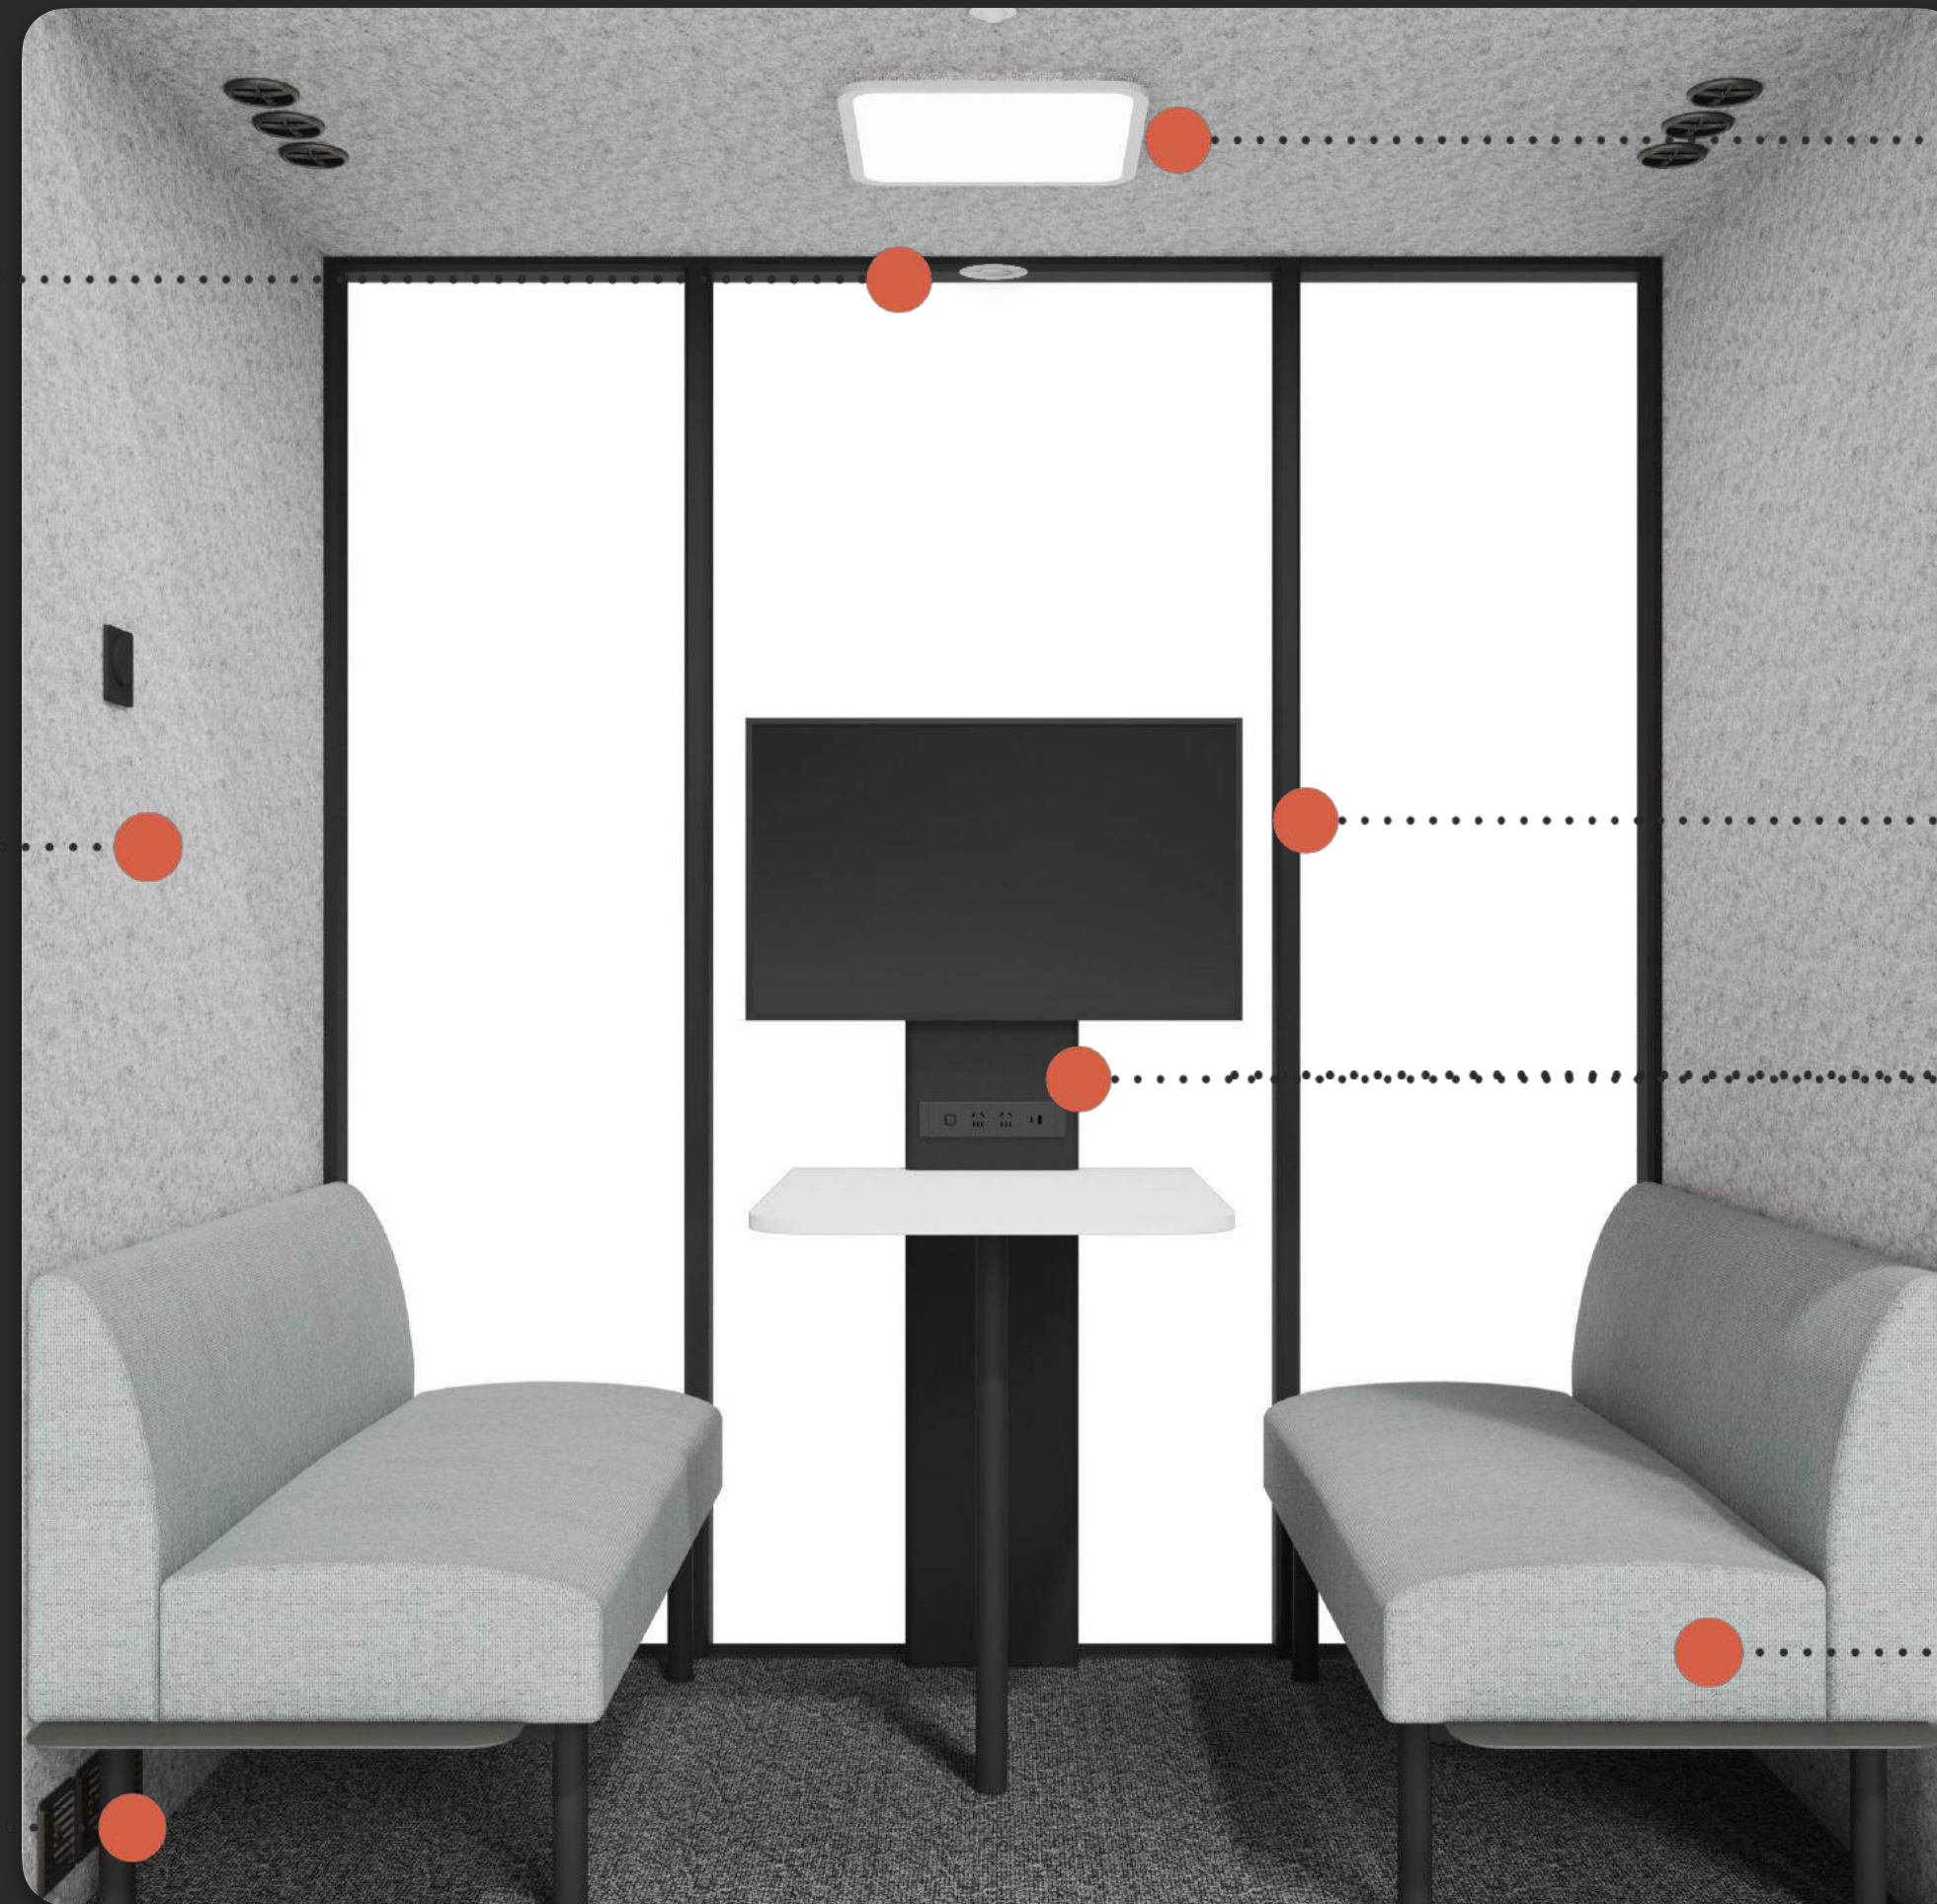

Built-in sensors automatically turn on fresh air and lights
Automatically turns off after 5 minutes of inactivity

Original acoustic package
built into the wall

Double air supply and double exhaust
90 seconds indoor circulation

Light switch/adjustment button
3 seconds slow lighting

Multimedia displays can be
mounted on the table

MUSEPOD CASES

The Challenge:

- Lack of quiet, private spaces for focused work.
- Difficulty in conducting private meetings in an open office.
- Constantly booked conference rooms, leaving employees without a place for important calls.
- Need for a flexible, scalable office solution as the company continued to grow.

MUSEPoD's Solution:

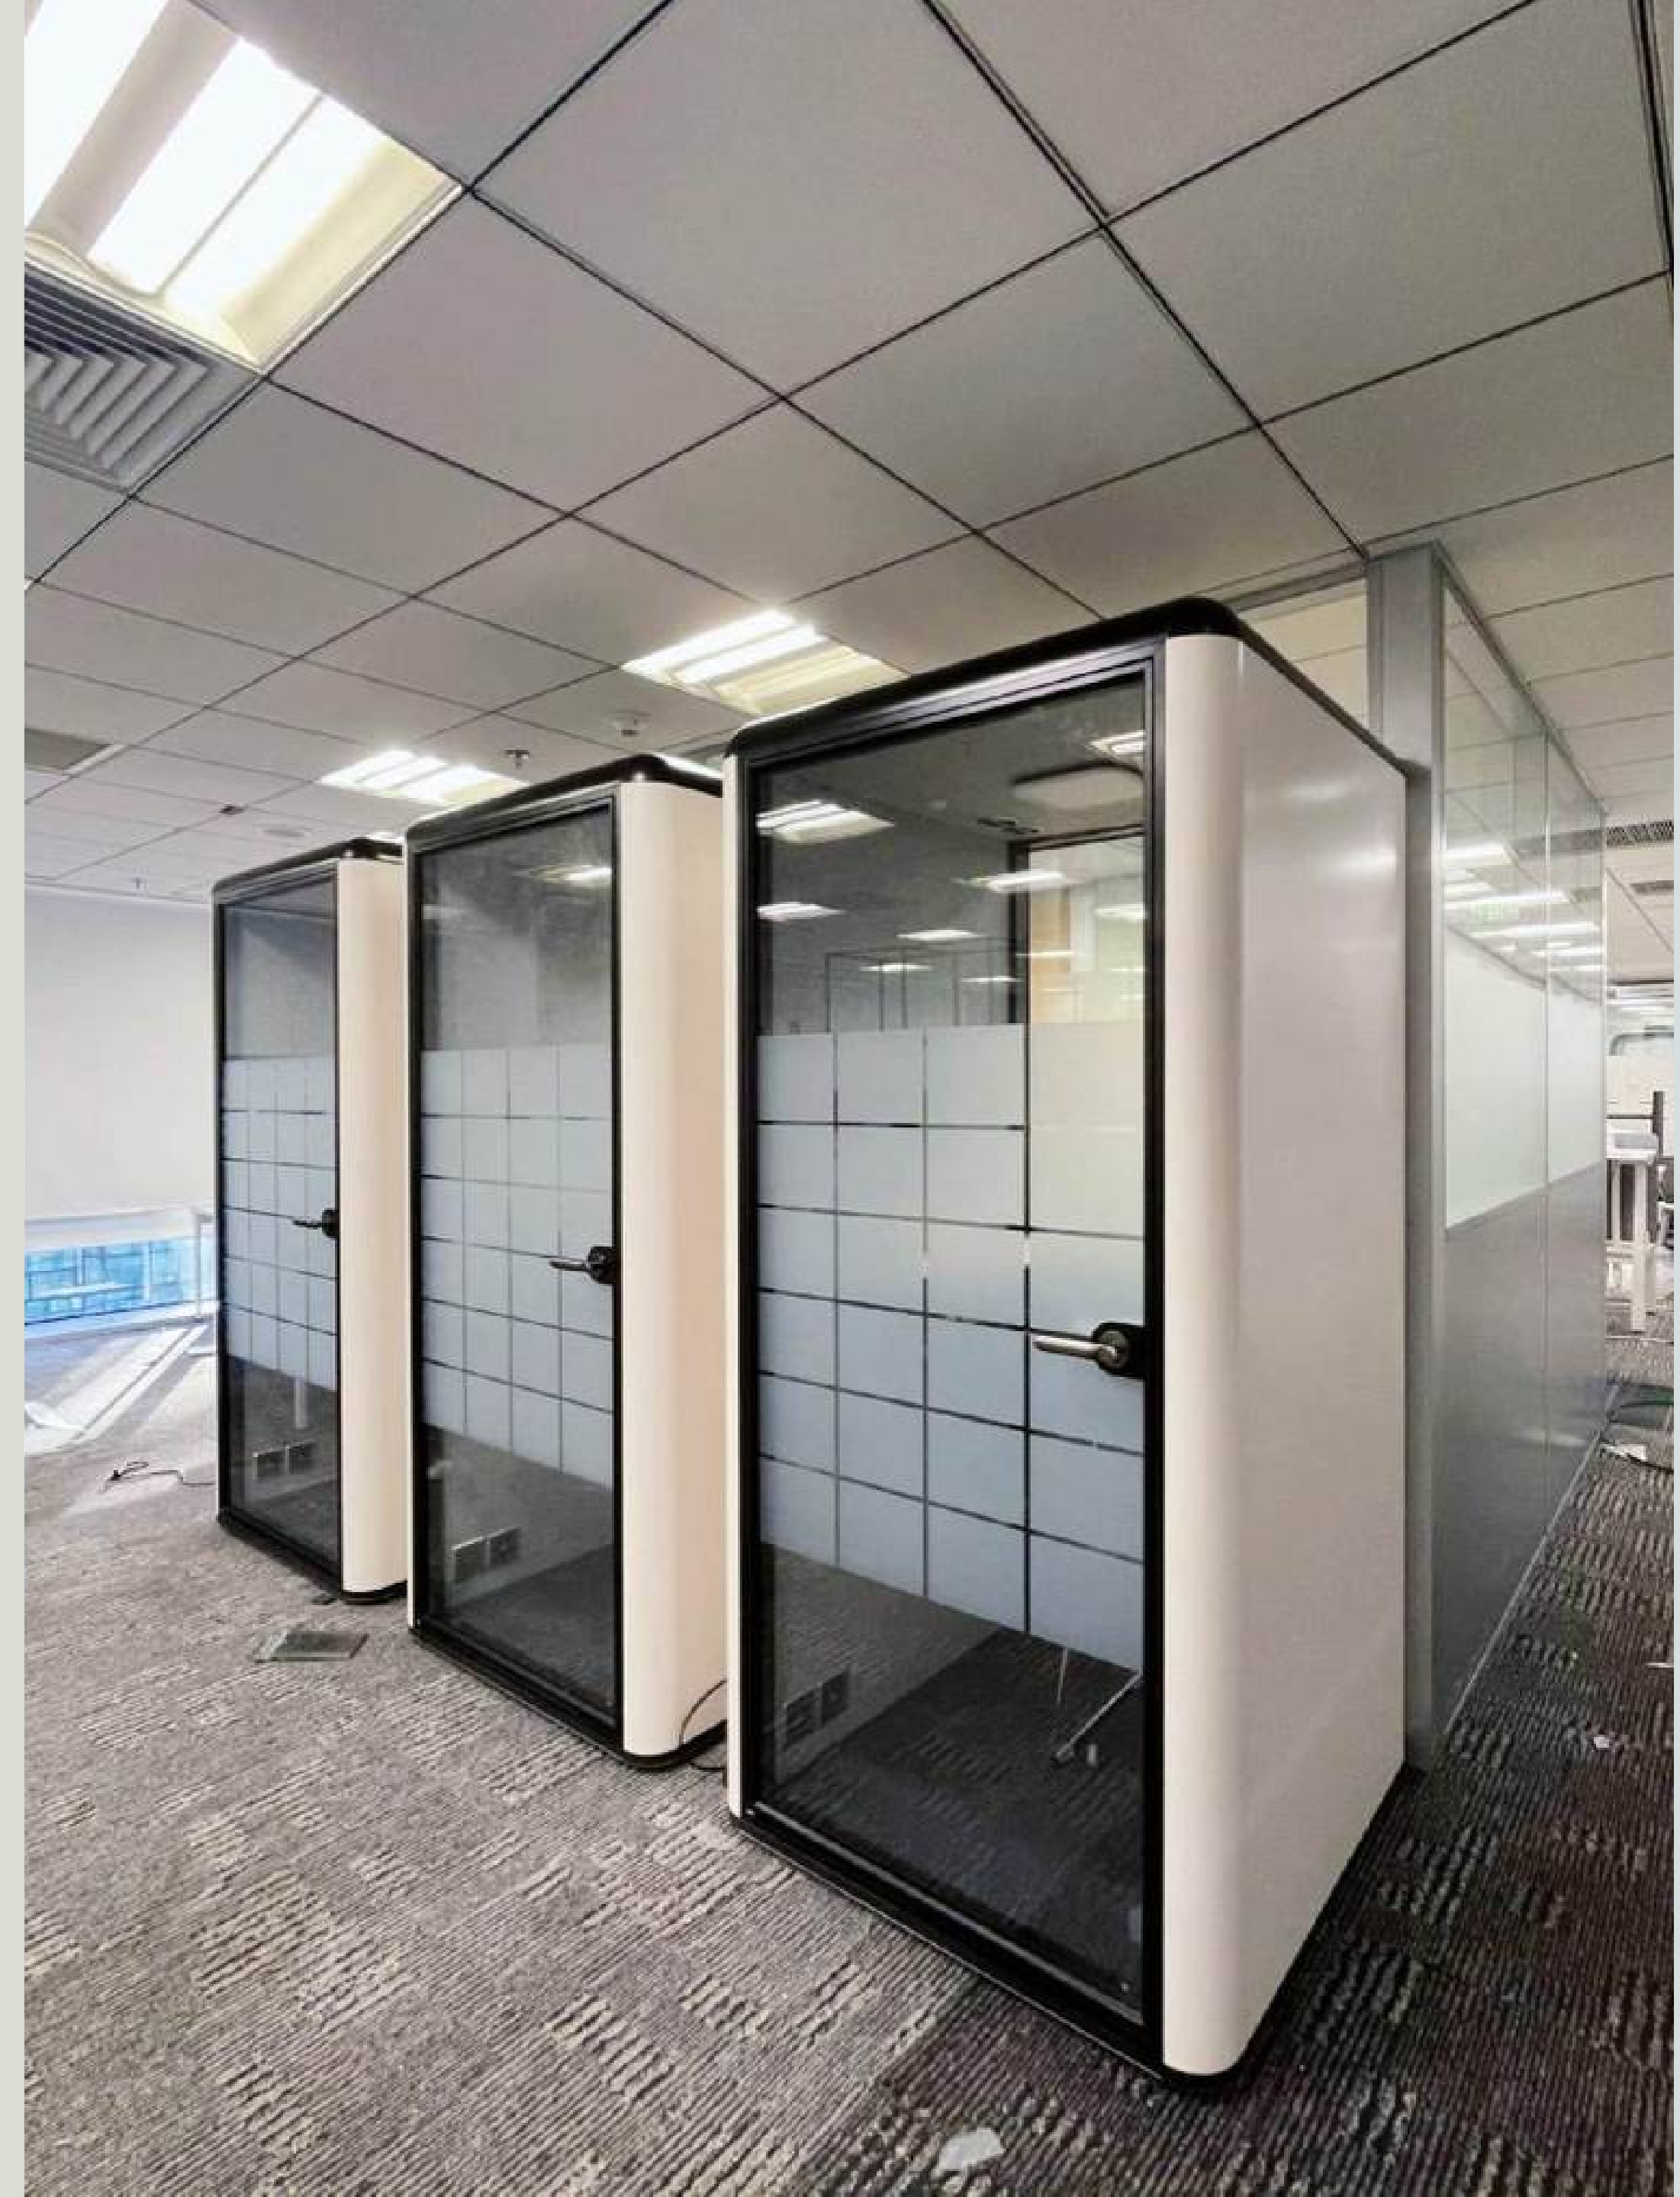

MUSEPoD addressed Pfizer's challenges by providing modular, soundproof office pods designed for both work and meetings. These smart pods offered private, acoustically optimized spaces, allowing employees to focus without distractions while also creating on-demand meeting areas. The plug-and-play design made it easy for Pfizer to adapt to changing office needs without costly renovations.

Outcome:

- Increased employee productivity by reducing noise distractions.
- Enhanced ability to hold private, confidential meetings without disruptions.
- Flexible and scalable office solution that adapted to Pfizer's evolving needs.
- Faster implementation—pods were installed in under an hour, minimizing workplace disruption.

MUSEPoD's commitment to quality, flexibility, and sustainability helped Pfizer create a more effective and harmonious work environment that supports both individual work and team collaboration.

The Challenge:

- Lack of quiet, private spaces for focused work.
- Difficulty in conducting private meetings in an open office.
- Need for flexibility as the company continued to grow.

MUSEPoD's Solution:

MUSEPoD addressed Volvo's challenges by providing modular, soundproof office pods designed for both work and meetings. These smart pods offered private, acoustically optimized spaces that allowed employees to focus without distractions. The mobility of the pods also allowed for flexible office arrangements as Volvo's teams continued to expand.

Outcome:

- Increased employee productivity by providing quiet spaces for focused work.
- Enhanced ability to hold private, confidential meetings without disruptions.
- Flexible and scalable office solution that adapted to Volvo's growing teams.

MUSEPoD's commitment to quality and flexibility helped Volvo create a more effective and harmonious work environment that supports both individual work and team collaboration.

The Challenge:

- **Excessive Noise:** Open coworking spaces made it difficult for members to hold confidential calls or focus on deep work.
- **Inefficient Previous Solutions:** Earlier office pods offered less than optimal noise isolation, forcing frequent replacements and incurring extra costs.
- **Sustainability Goals:** WeWork aimed to integrate eco-friendly solutions that resonate with their green initiatives.

MUSEPoD's Solution:

- **Superior Noise Isolation:** MUSEPoD's office pods deliver an impressive noise reduction of up to 45dB, ensuring a truly quiet environment for focused work and confidential meetings.
- **Eco-Friendly Design:** Crafted from 100% recyclable materials, MUSEPoD pods align perfectly with WeWork's sustainability and green building initiatives.

The Outcome:

- **Enhanced Productivity:** With superior soundproofing, members now enjoy distraction-free zones that significantly boost concentration and performance.
- **Cost Savings:** The durable, high-quality design of MUSEPoD pods eliminates the need for costly replacements, delivering long-term value.
- **Eco-Conscious Work Environment:** The use of 100% recyclable materials reinforces WeWork's commitment to sustainability, enhancing their brand reputation.

By partnering with MUSEPoD, WeWork has successfully transformed its offices into modern, sustainable, and highly functional spaces. These advanced office pods not only solve everyday challenges but also empower members to work more efficiently, ensuring WeWork remains at the forefront of innovative workspace solutions.

The Challenge:

- Traditional seating areas lacked privacy, making it difficult for customers to hold video calls or work efficiently.
- Starbucks wanted to enhance its co-working environment without compromising its open and inviting café atmosphere.
- The need for a modular, space-efficient solution that integrates seamlessly into their store design.

MUSEPoD's Solution:

MUSEPoD provided Starbucks with custom-designed, soundproof work pods that seamlessly blend with the café's aesthetic while offering customers a comfortable, private, and acoustically optimized workspace. These pods:

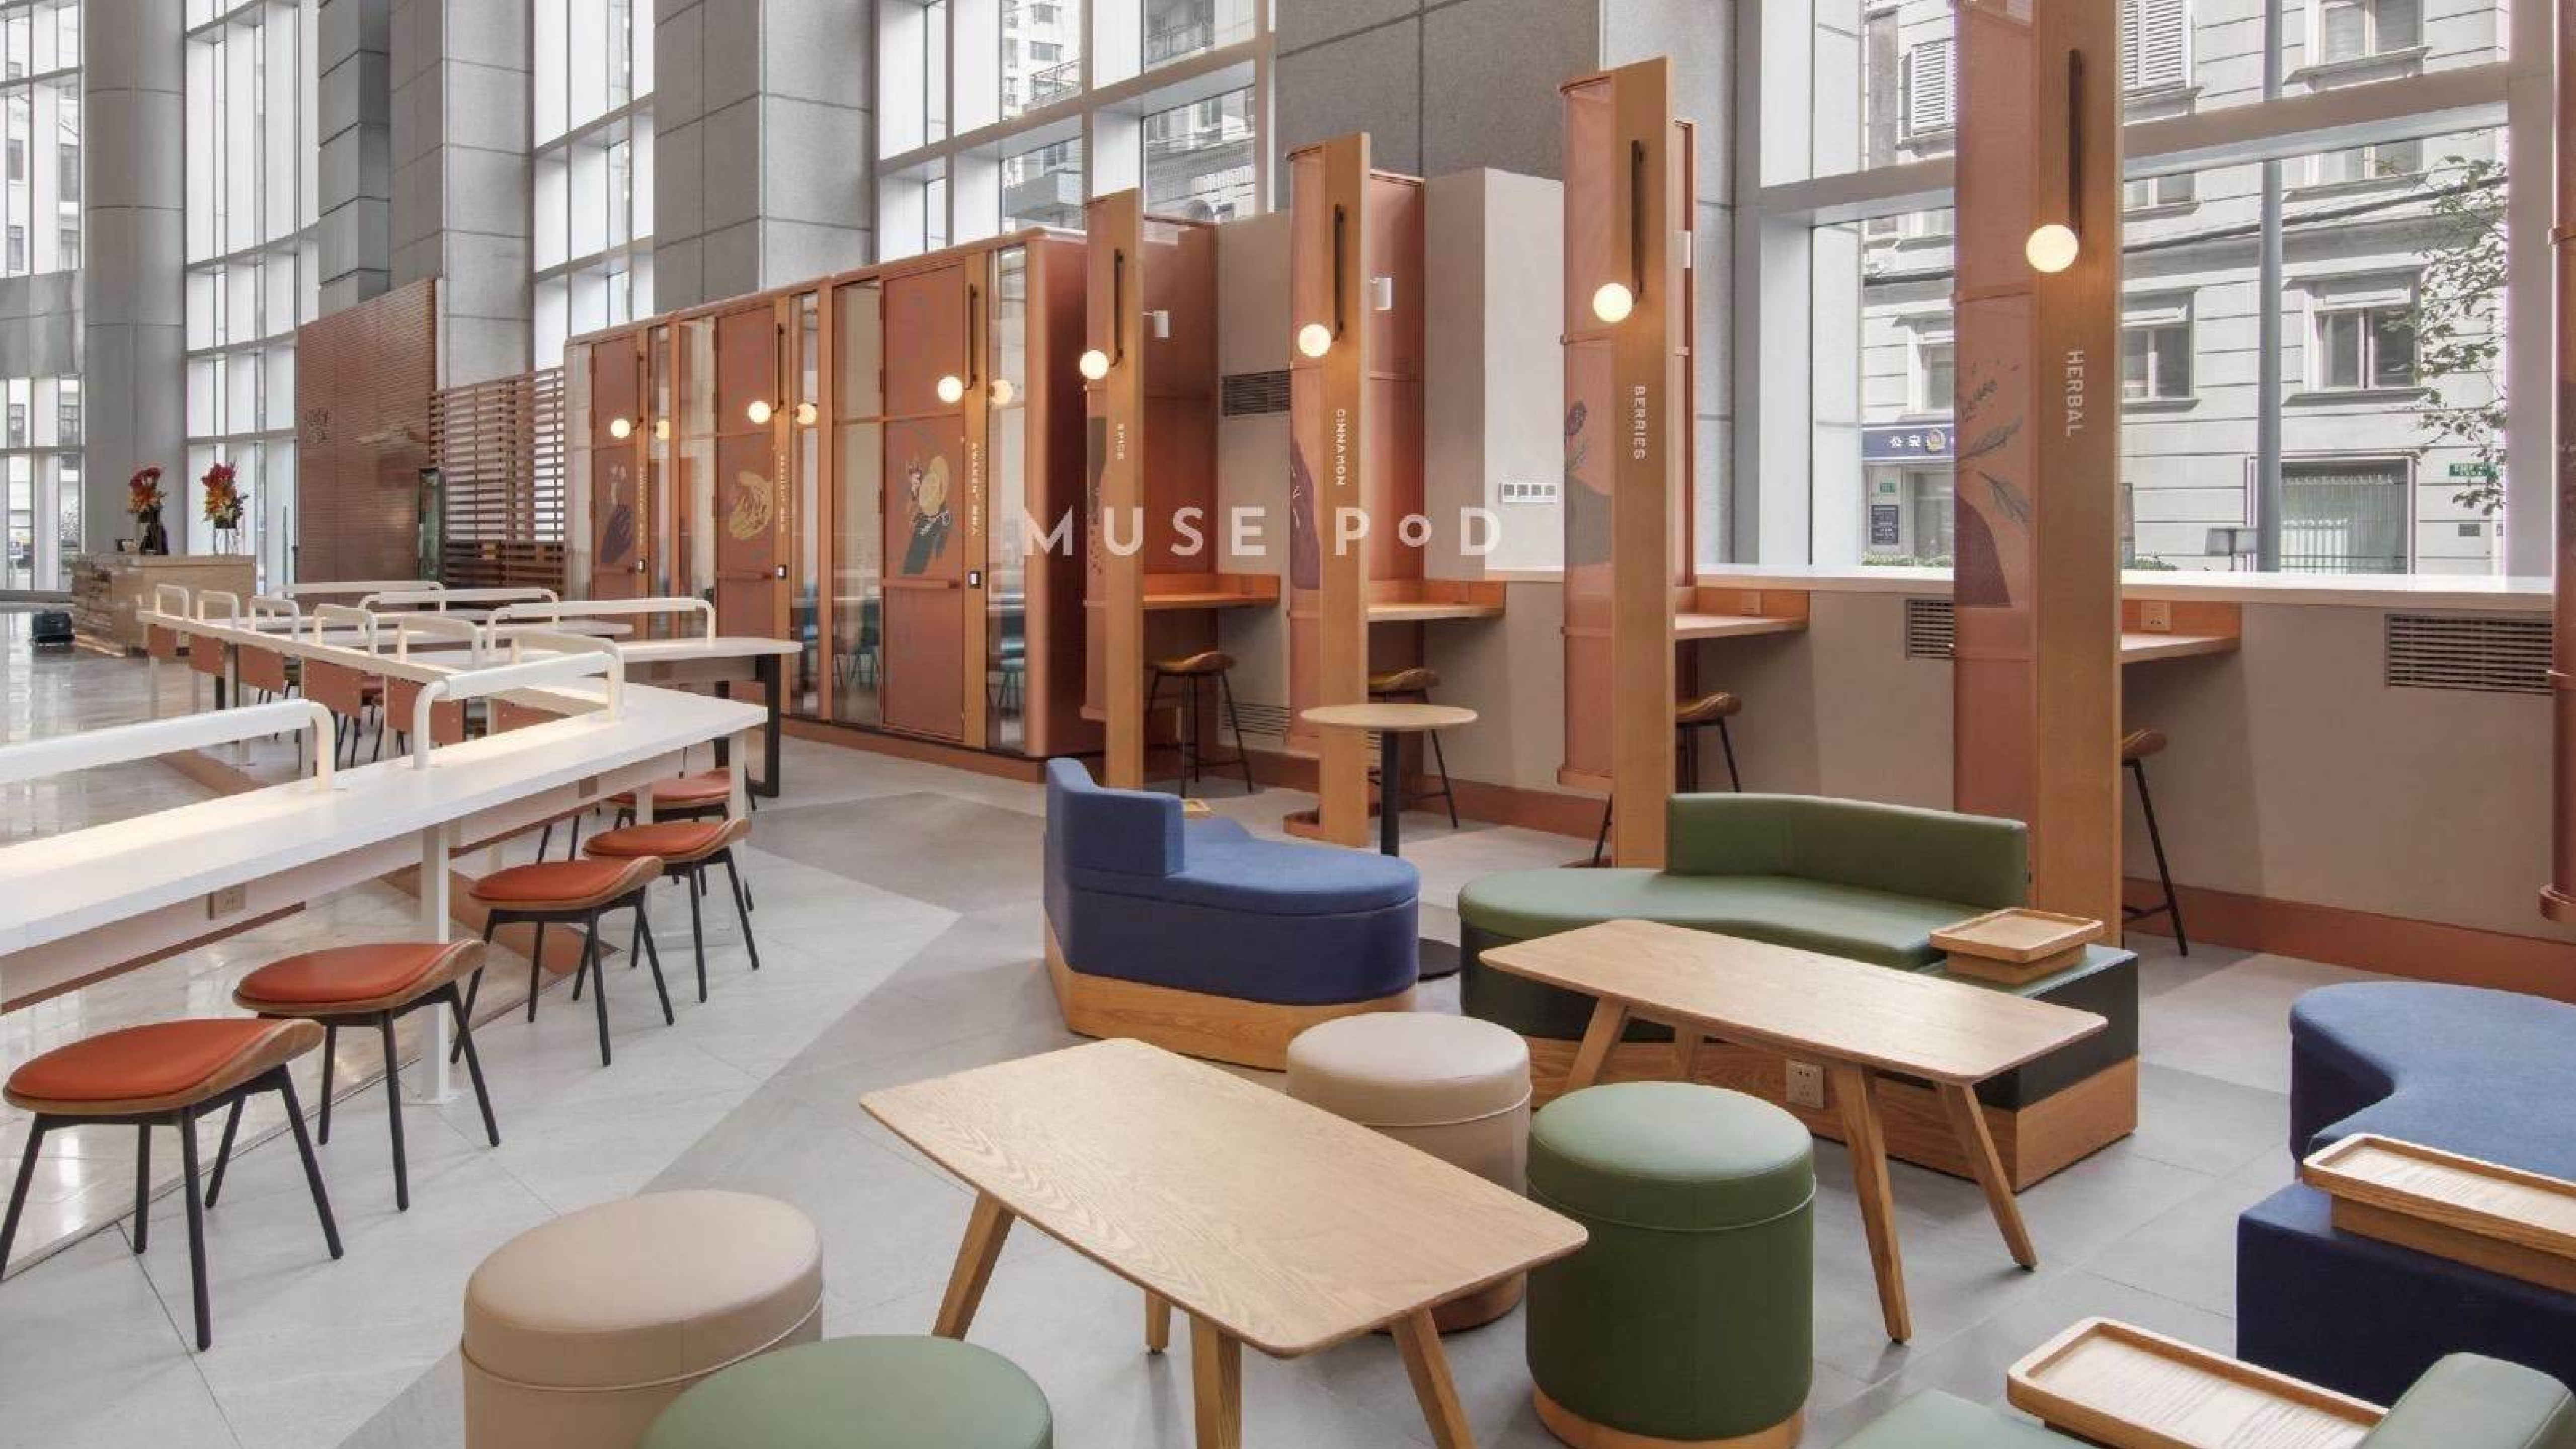

- Offer dedicated semi-private workspaces for focused work and virtual meetings.
- Maintain an open café environment while catering to customers who need a quiet space without leaving Starbucks.

Outcome:

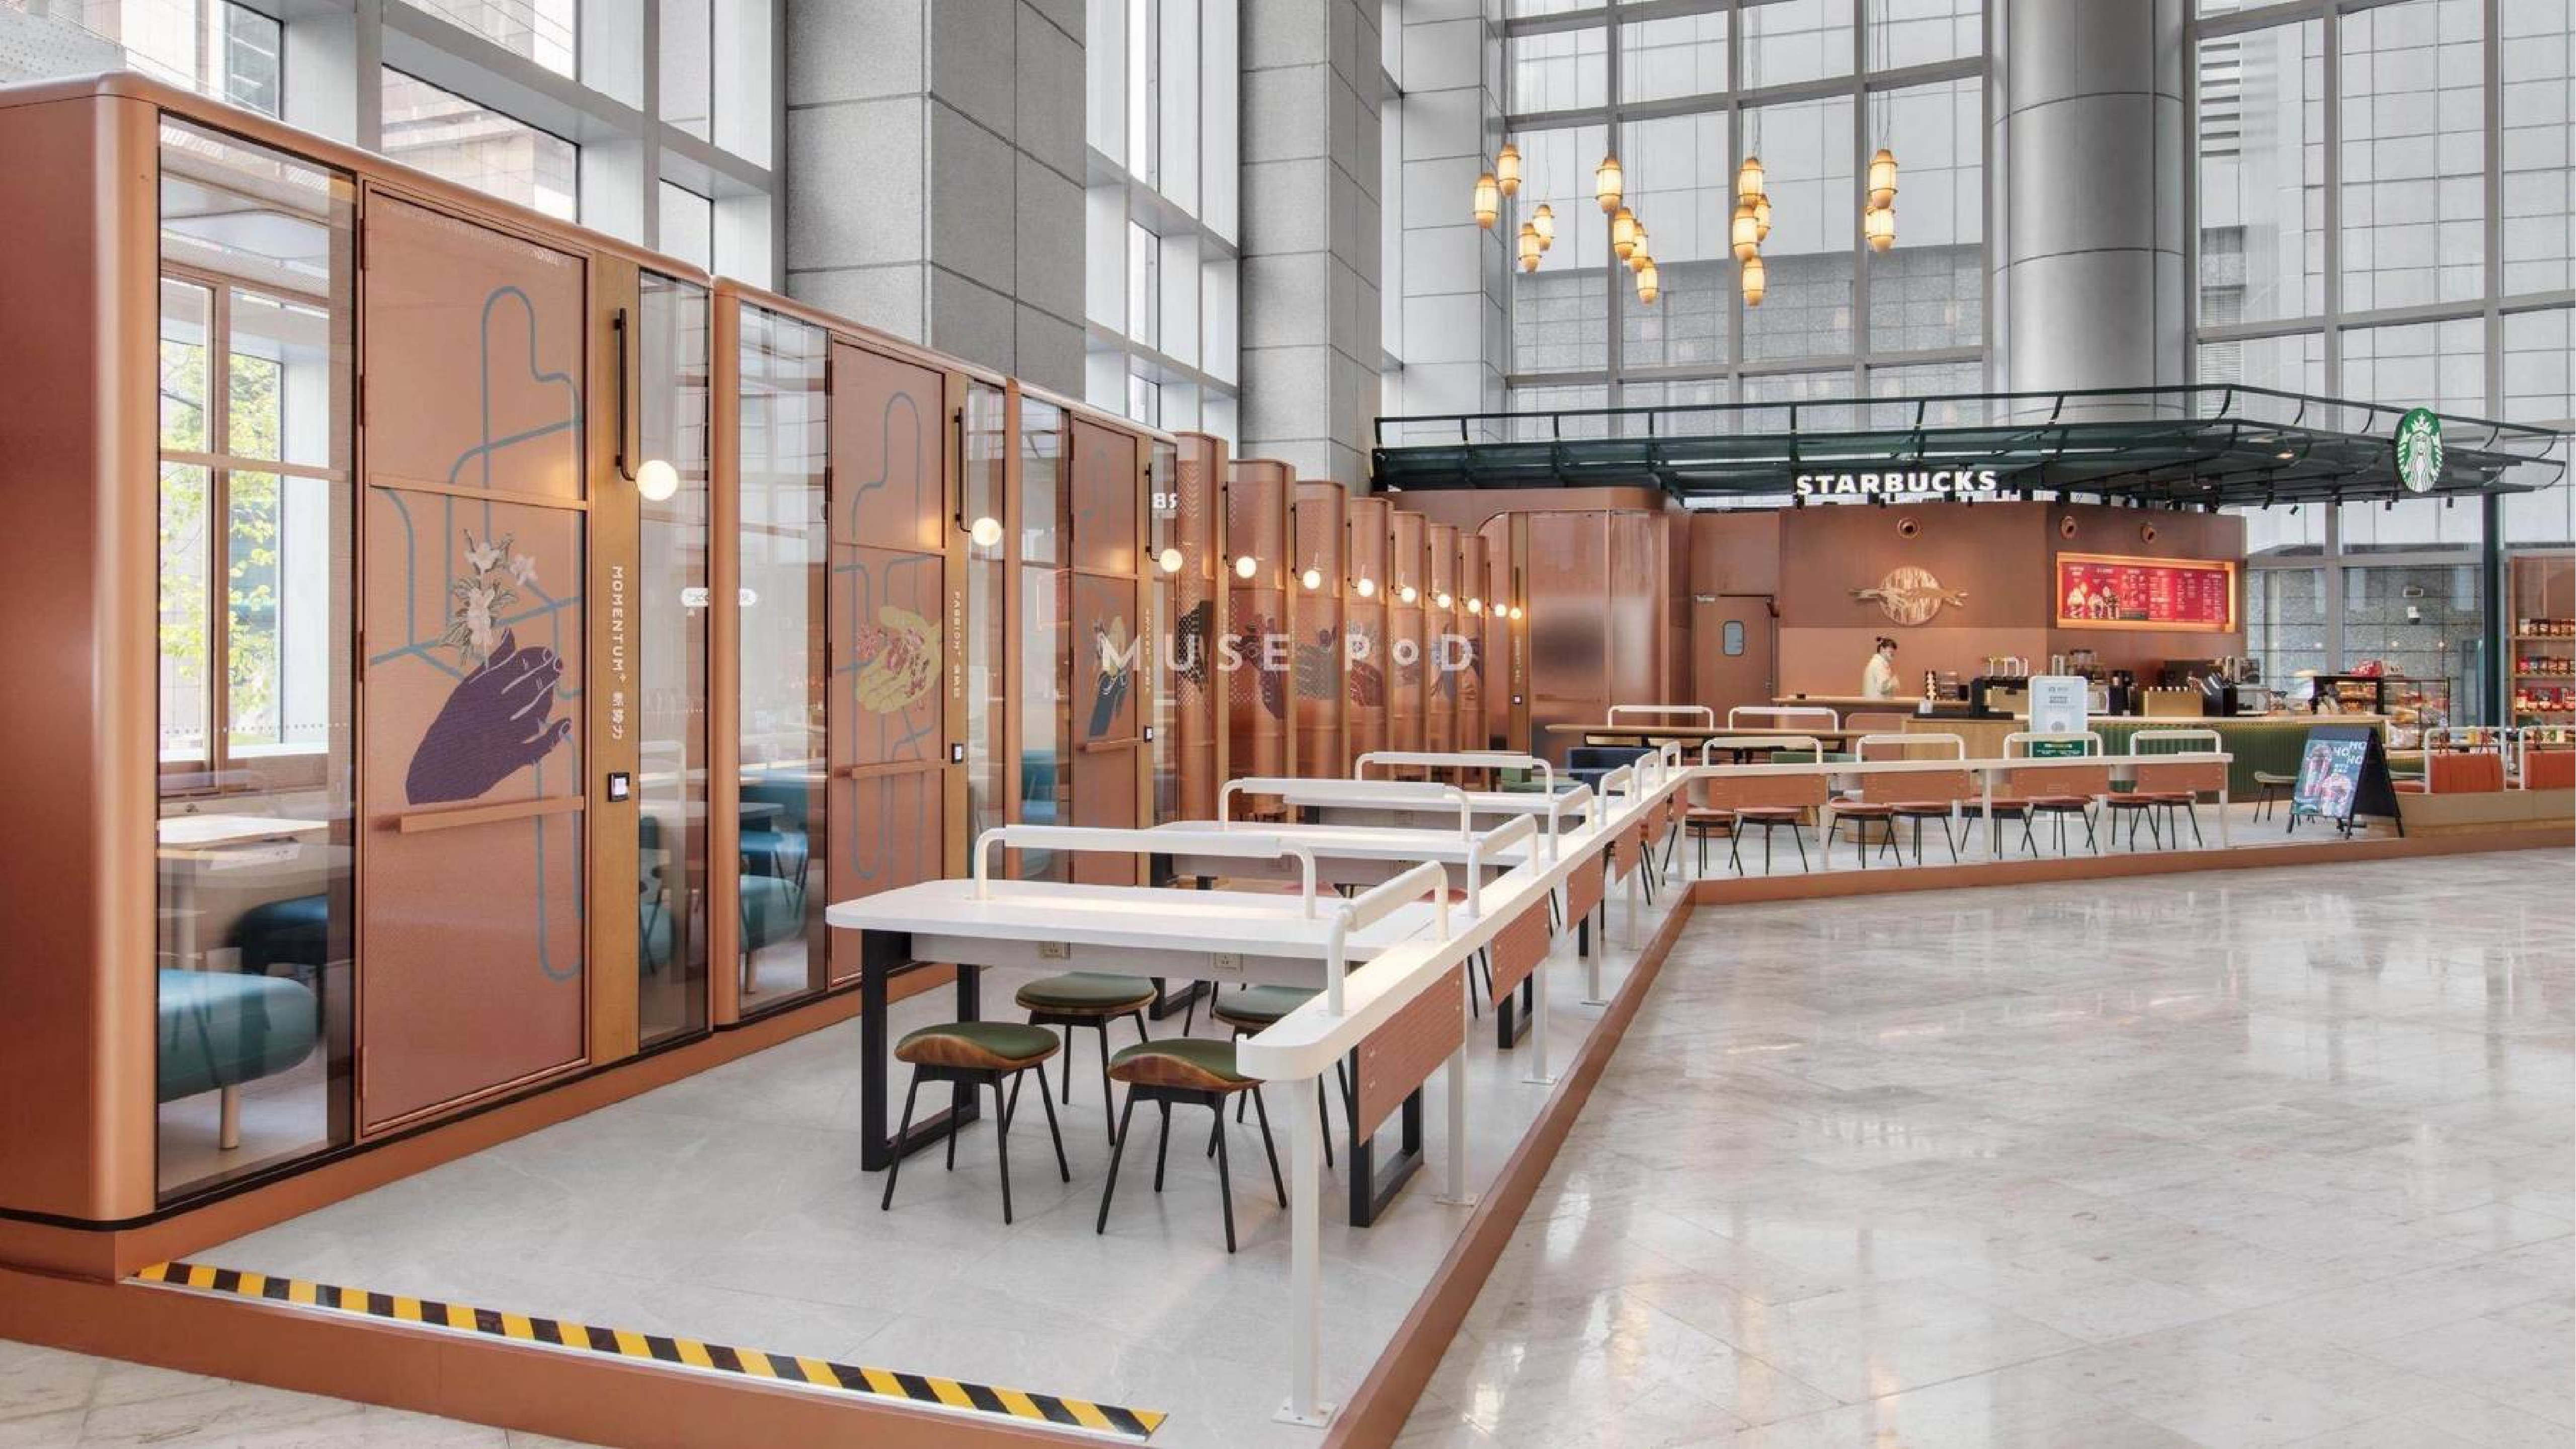

- Enhanced customer experience, attracting more professionals and remote workers.
- Increased Starbucks' revenue by encouraging longer customer stays and repeat visits.
- Optimized space utilization by incorporating co-working zones without major renovations.
- Created a hybrid café-co-working space, reinforcing Starbucks as a go-to spot for both social and professional needs.

MUSEPoD's custom, modular solution helped Starbucks redefine its café experience, making it a hub for both community engagement and professional workspaces.
