### Natural comfort

我们在思考，产品本该是什么样的。

作为一名设计师，我习惯性会去把一样东西复杂化，赋予它很多设计点，恰巧却逐渐偏离了沙发本身自然舒适的初衷。

We are thinking about what a chair should be like. As a designer, I have a habit of complicating something and giving it many design points, but unfortunately it gradually deviates from the original intention of the sofa itself being naturally comfortable.

## LEISURE SPACE

### Time Division

深度洽谈区，地面上的分割线，如时间的分割法则。回应着人们工作的复合模式，调和着空间中日与夜。深与浅静默与温合的各种可能，恰如其分的平衡在这里得到肯定。空间以一种更直觉的体验被人所感知。

A deep negotiation area, a dividing line on the ground, such as the time division rule. Responding to the complex mode of people's work, harmonizing the day and night in space. The appropriate balance between the various possibilities of deep and shallow silence and warmth is affirmed here. Space is perceived by people with a more intuitive experience.

## Minimalism

体现极简主义美学的同时，通过先进的技术、尺寸的把控与色彩的搭配来将经典重现，优雅的圆弧边设计增加沙发的厚实感，却用了更少的材料，具有更强的强度。

## Embrace

优美扶手设计，似是张开的双手，在召唤疲倦的人入座。

设计灵感不言而喻来自于拥抱。

拥抱是一个相互的动作，我们给予拥抱同时我们也获得他人的拥抱。

The design of the suspended armrest resembles open hands, summoning tired people to take their seats.

The design inspiration naturally comes from embracing.

Embracing is a mutual action,

where we give hugs while also receiving hugs from others.

## Elegant Temperament

自身带有一种优雅的气质，  
初看不觉，久看却让人动容，  
仿佛它在诞生的时间里，就已深深与品牌形象相联系在一起，  
不管是放在一个简单的家具陈列厅，  
又或者是在与我们日日相处的空间里，  
已在我们与“它”之间构建起一个和谐缜密的气场，  
它一面温和的馈赠我们柔和舒适的家具物事，  
另一面，却又犀利地表达着品牌的美学方式。

It carries an elegant temperament. At first glance,  
it's imperceptible, but after a long time, it's moving.  
As if it had been closely linked to the  
brand image at the time of its birth.  
Whether placed in a simple furniture exhibition  
hall or in the space where we spend our days together,  
a harmonious and meticulous atmosphere  
has been built between us and "it".  
On one hand, it gently presents us with soft and comfortable  
furniture items, while on the other hand,  
it sharply expresses the brand's aesthetic approach.

Behavior, Space, Product

创意和设计成为企业发展关键点。时代让人们开始通过智慧创造价值，而优秀的办公空间则让员工价值得到充分释放。为此，我们探索行为、空间、产品之间的关系，从办公行为需求出发，提供相应空间方案，再由空间衍生出对应的产品组合。通过将多种空间进行模块化设计，通过重组与融合，达到功能与视觉的最佳效果。

Creativity and design have become key points for enterprise development. The era has enabled people to create value through wisdom, while excellent office spaces fully unleash employee value. To this end, we explore the relationship between behavior, space, and products, starting from the needs of office behavior, provide corresponding spatial solutions, and then derive corresponding product combinations from the space. By modularizing multiple spaces and restructuring and integrating them, the best functional and visual effects can be achieved.
