LEADCOM SEATING

We are proud of the design and quality of our seating. Our unparalleled custom design capabilities deliver a "concept to installation" service, designed and manufactured to your precise site requirements and specifications.

Unlike other seating manufacturers, Leadcom does not simply outsource components from other suppliers to assemble. Apart from the raw materials we work with, almost every component for our seating is created at the company's research, development and production base.

We listen, we discuss, we advise. Our team of trained technicians provide answers to all your technical questions about our seating products, including layout, installation, maintenance, etc. They are always on hand at the initial planning stage to advise and design a solution that maximizes your available space.

Decades of genuine, in-house "concept to installation" experience and expertise make us the right team for your project.

Manufacturing Capability

Retractable Seating Solutions

Wall Attached Unit

Our most popular telescopic seating solution, the seating system supplied from 3 to 30 tiers, are extremely adaptable and efficiently recover floor space, allowing you to easily get the most out of your facilities at all times.

Travelling Unit

A hybrid of recessed or wall attached and portable banks, travelling units use integral power to drive the entire bank from one setup position to another. Set-up time is greatly reduced compared to individual portable sections.

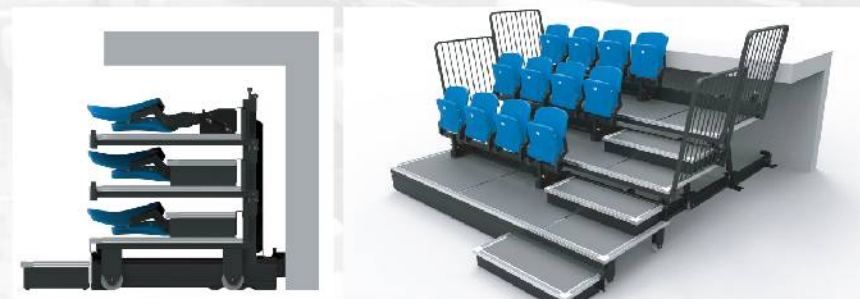

Freestanding Unit

For some buildings, there are permanent large columns or weak loading rear wall, the freestanding units is the ideal solution.

Recessed Unit

This system utilizes a pocket in the wall to house the bleacher when closed. The ends may or may not be exposed and the bleacher is hidden from view typically under a balcony or niche. Recessed bleachers are outfitted with upper and lower tracking guides, removable end rails, and can accommodate custom transition step to the balcony when required.

Portable Unit

Smaller units can be moved around within the space using a pair of lifting dollies or for ultimate versatility our integrated 360 swivel dollies allow your facility staff to move the units in any direction with a minimum of effort.

Echo Series-Polymer Bench

The Echo Polymer HDPE Bench seat is our simple multifunctional seating option for gyms and multi-purpose facilities.
