FONTE I

| Fonte Wall Panel (with Glass)

Expand, Re-engineered

Rome wasn't build in a day. Fonte can.

Fonte high walls system are conscientiously engineered to adapt a balance between design and function. The visual unification between architecture walls and office furniture reveals an inspiring harmonious space in today's work environments.

Experience economical ways to expand or re-design your office with this cost effective solution. Ease of modular construction and simple installation with these highly re-adaptable and re-configurable solutions.

Fonte is a breakthrough alternative to traditional construction and design paradigms. Build your very own functional space that promotes efficiency and productivity in your workspace.

Unlimited possibilities with our signature wall panels

Fonte walls system enables you to change when and wherever you need to, with minimal errors compared to conventional construction.

Thoughtful integration with flexible design applications tailored to help enhance your interior environments. These sustainable wall panels will help anticipate your changes while sustaining the planet.

SE - HOUSTON

With Style, and Value

**We listened to the people who
works in the office**

Ergonomics with style and value can also be implemented in the management area. Informal communication while standing saves time and is the most important interface in every company.

Side Return

EX-HOU-F-HAD210

L 2100 x W 2000 x D1 900 x D2 600 x H 750 ~ 1236 mm

A desk has to be more than a table

A sophisticated well thought out system with which you can organize your office individually - multifunctional with a wealth of variants, ergonomically and convenient to use.

Focus on user orientated

To achieve the maximum is by reducing to a minimum. A little table as necessary and as much user orientated functions as possible to fulfill maximum variability, functionalism, ergonomics and sustainable office furnishing.

Highest, Degree of Freedom

A good office means motivation

Anybody who works daily at a desk knows best which contribution furniture is desirable to simplify work to an optimum in the office. PRESIDENT series is the perfect table system which is transformable from a single executive table to a mix of standing, sitting and in between movement thus creating that multifunctional free hand that is rich in variety.

A desk honed to perfection

Easily adaptable with wide options of storages, PRESIDENT is a well-made executive series that shows sophistication delicately.

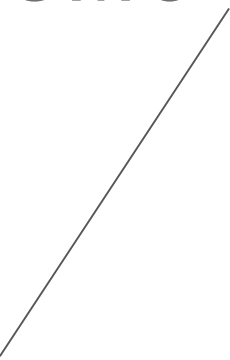

Being creative means staying in motion

Regularly alternating between standing and sitting at your workplace has advantages: it strengthens your back and improves your health, as well as your concentration

Luxurious, Elegant

Italian design, desirable

CORIUM has been designed as a complete desk concept. With a modern and elegant touch, Corium executive is clearly identifiable through its Italian engineered metal legs and the well balanced material construed perfectly into an executive room

Individual Chic

The polygon-shaped legs, polished chrome or painted in white, characterizes the entire collection. The junction of its unique leg, elegantly curved, appears as one single piece. The geometrical design hides the complexity of its structure and that gives a feeling of cleanliness and lightness to the Italian designed structure.

Lavish, Confident

**Never say no when you really
want to say YES**

YES, incorporates style and efficient use of executive desking. It integrates fine melamine finishing with contrasting arrays of colors and the carefully crafted chrome finished metal legs. It gives a feeling of extravagance but at the same time keeping it hands-on everyday use. It encourages the user feeling pleasant and confident, which is the intention why we made YES to be.

A combination with design

The metal legs are constructed from reinforced tubes that are finished in chrome disguising wire ways in wooden channels offering innovative techniques in it's design.

Chromatic, Support

Functionalism with balance

Through raising the storages with a chromatic pallet close to the base support, the fixed side return is perfected.

Contrast Finishes

Striking in their design

Sovica range offers a great variety of choice as well as meeting tables. The design for Sovica is to provide good relation between personnel and the organization with appropriate methods of office uniformity.

SOVICA-N

Conference Table with Wooden Trap Door
Double Brush

SOV-F-CT2N-xxx-148

Length: 3000 / 3600 / 4000 mm

Width: 1480 mm

Height: 750 mm

The Right Atmosphere!

No Matter How Many Are Present

Sovica furniture collection with a unique design made of high quality raw materials. The lightness of its look contrasts with the solidity of the thick steel structure. The design offers overall office solutions thanks to the versatility and possibilities.

SALSA

Training Table with Modesty Panel
and Connector

SAL-FDxxx-060E

Length: 1400 / 1600 / 1800 mm

Width: 600 mm

Height: 730 mm

Adaptable, Flexible

**Just remember where
you started**

Our Salsa tables are functional for training and studying. They fit the bill wherever flexible work surfaces are needed. For collaboration space needs, tables can be fixed, or equipped with castors, classroom or training center can be reconfigured or appear and disappear effortlessly.

To assemble, disassemble and store

This flip top version enables assembling, disassembling and storing of desk to optimize the space. The Salsa metal legs are epoxy white powder coated with castor rollers fixed so that it can seamlessly integrate to create a complete environment.

Connect and Disconnect

Salsa offers the possibilities to connect and disconnect in a quick and simple way using a simple connector kit that secures the positions. No tools are required to remove the modesty panel or engage the ganging mechanisms. All you need to do is to release the lever and the work top flips back to its nesting position.

ORO

PANEL BASED

**Conference Table with
Aluminium Cable Box**

ORO-PCT-390

CONNECT

Sit and Connecting

Connect series provides different single elements to group that you can get any combination you want to fit your space perfectly. Connect seating element is invested with their function and lies there orderly. Connect series consists four parts from a sofa: seat element, armrest element, back element and pouf element, that you can combine them as you like to fit any space if you require.

SNUG

Sweets and Smooth

Inspired from jelly sweets, the shape of Snug is round, organic and elegant. Touched round and smooth, the shapes of back and armrests serve an excellent seating experience as well. With the use of unique fabric, Snug series shows the brilliant temperament, which is born to be the **bright points wherever it's served.**

LAVISH

Smooth Designed

Designed, lightweight and simple, Lavish is a frame sofa with full of smooth lines and warm materials. Its deep **seat perfectly supports the casual recline** of the body.

INSPIRE

Curved & Complement

Inspire developed what eventually became the series. Inspire is an innovative, with its personal twist. The simple lines are classically Scandinavian, while the details give the furniture a striking new expression. Despite the contrasting elements, the top and bottom still merge into an entity that is quite unique.

ERGONOMIC TIPS

Posture and screen position

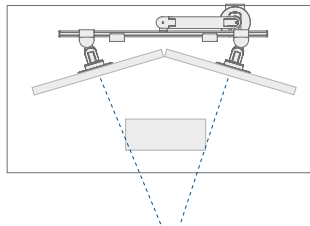

Screen position

Single screen position

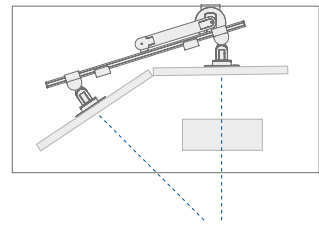

The proper position of a single monitor is straight in front of you and has a distance not more than your straight arm

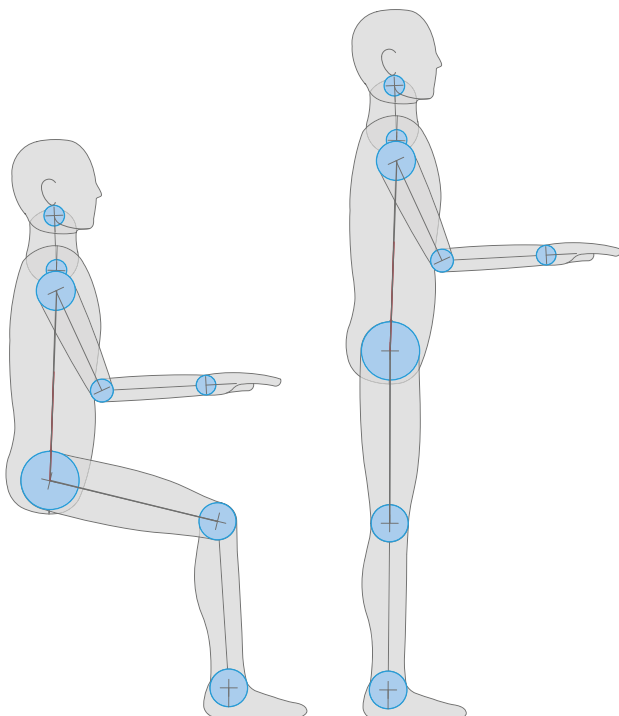

Dual screen position

Dual screen should have a panoramic view so the distance from your eyes to the screen is the same

When making one screen your main view so the distance from your eyes to the screen is the same

WORKTOOLS Monitor Arm

In today's fast-paced digital world, ergonomic monitor arms and mounts enable instant personalization of the workplace for improved comfort, health and productivity. Monitor arms not only provide clutter free workspaces, they support a healthier, more ergonomic working posture.

- Extending Arm: provides a wide range of viewing angles
- 360° Rotary VESA Plate: for more viewing experience
- Slide-in VESA Plate: for quick attachment and detachment
- Lightweight Aluminum Construction: provides a sleek, lighter, and elegant look
- Spring-Assisted Mechanism: allows to easily move up and down
- 180° Rotation Stop: prevents monitor arm from swinging into screens or walls
- Built-in Cable Management: for an organized and neat workspace

The Perfect Shape

of a Circle as the Core Structure

Simple but out of the ordinary, sleek and functional, Insertion joint assembles in minutes while reducing packaging size (perfect for e-commerce). Adjustable spring gauge enables perfect weight balance for monitors.

The cable management conceals the wires for a clutter-free appearance. When there are privacy panels or walls behind the monitor arm, the universal slider allows flexibility to put the monitors together while maintaining more spacious working space.

MASTERY SPRINT Assisted Monitor Arm

VLL-LDT75-C024S

Features

- Universal Sliders: allow the monitors at a proper ergonomic distance
- Built-in Spring Tension Mechanism: for perfect weight adjustments
- 180° Rotation Stop: prevents monitor arm from swinging into screens or walls
- Easy to adjust, no tools required
- Cable Management: keeps everything organized
- Detachable VESA Plate Design: enables easy installation
- Installation: Clamp, Grommet

Budget Friendly and Stylish

With an innovative gas spring X-Lift Structure comprised of flat crossmembers, the Sit-Stand Desk Converter with Keyboard Tray provides a refreshing ergonomic sit-to-stand experience for users. The two-tier design with ample weight capacity provides plenty of workspace for daily work.

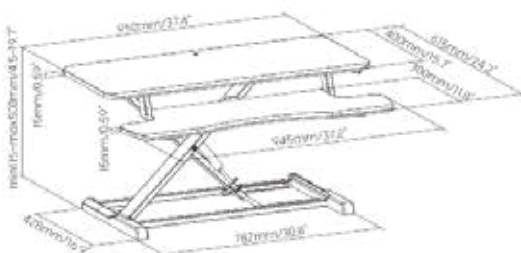

Non-Slip Pads
protect desk surface and
prevent movement while working

SIT-STAND DESK CONVERTER with Keyboard Tray VLNB-DWS34-02N

Features

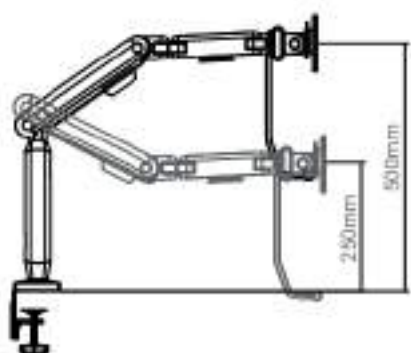

- Counter-Balance Gas Spring: creates smooth and quick transitions
- Spacious Surface: for placing more devices
- Lower Keyboard Deck: holds keyboard and mouse side by side and raises in sync with the top surface creating a comfortable work space
- Smooth Edges with Rounded Corners: for added safety
- Non-skid Silicone Pads: protect work surface from scratches or scuffs
- Squeeze Handle: adjusts the height in a snap
- Quality MDF Board: features high impact resistance (TSCA Title VI compliant)
- Preset Hole: supports grommet installation (compatible with most LUMI monitor arms)
- Large Solid Base: ensures it stay sturdy and stable at any heightworkspace
