FURNICONCEPTS IN THE NEW INDIAN EXPRESS NEWSPAPER

Our journey, vision, and fast-growing impact in the home and commercial furniture industry have been featured in The New Indian Express. The article highlights on how Furniconcepts is reshaping workspace, institutional, auditorium and hospitality environments through thoughtful creative design, ergonomic innovation, and world-class manufacturing.

This recognition comes at an exciting time as we strengthen collaborations with leading global brands, bringing the heavenly touch from Brazil and Italy,to deliver turnkey furnishing projects. This also sheds light on our mission to make world-class furniture accessible, durable, and designed for life. We extend our gratitude to our clients,

partners, and dedicated team who make this progress possible.

SPONSORING SAMAYAL THALAPATHY, SHARJAH

Marking our success as we sponsored the 'Samayal Thalapathy' cooking event in Sharjah this November, celebrating the brilliance of culinary excellence and community spirit. The celebration featured notable guests from the Tamil entertainment and culinary world, including chef Madhampatty Rangaraj and food creator Selva Sunitha. The evening ncluded the main cook-off, colourful and live music performances by Super Singer participants, DJ sets, and various festive activities.

I am glad to be a part of the Furniconcepts family. Working in sales has helped me grow in both professional and personal life. Every interaction and project gives me new learning and confidence. The supportive team culture motivates me to perform better and grow.

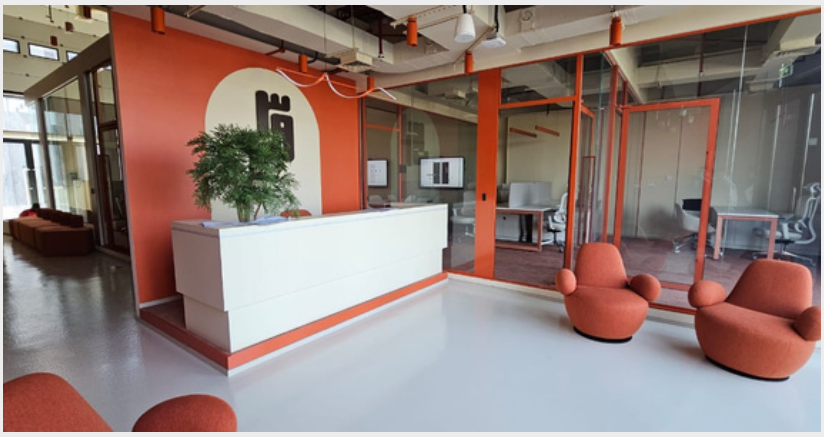

- Pradeep Backiyaraj
(Sales manager)

OMAN NATIONAL DAY 21ST NOVEMBER 2025

SHARJAH RESEARCH AND TECHNOLOGY PARK, UAE

Furniconcepts unveils a core, distinctive new project at the Sharjah Research and Technology Park (SRTIP), UAE. An environment envisioned for the leaders and innovators of tomorrow. Designed as a seamless dialogue between architecture, nature, and purpose-built furniture, the space moves beyond conventional work design to create a truly immersive experience. Natural light, open planning, and thoughtfully crafted furniture come together to encourage focus, collaboration, and well-being. Each element has been curated to support evolving work cultures while reflecting sustainability and forward-thinking design principles.

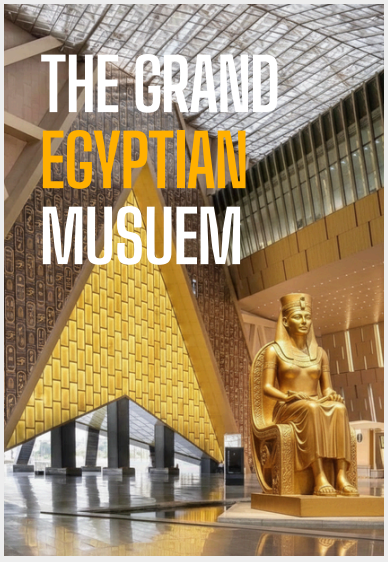

This project stands as a greatest testament to Furniconcepts' philosophy of creating spaces that inspire ambition and innovation. At SRTIP, Furniconcepts delivers more than interiors—it shapes environments where ideas take form and the future of leadership begins.

THE GRAND EGYPTIAN MUSEUM, EGYPT

The Grand Egyptian Museum (GEM) has officially opened to the public from November 4, 2025. Located near the iconic Giza Pyramids, Egypt, encompassing a massive 490,000 square-meters, GEM now stands as the world's largest archaeological museum dedicated to a single civilization. The museum showcases its complete collection of over 100,000 priceless artifacts spanning 7,000 years of Egyptian history., offering visitors an unparalleled journey through ancient Egyptian civilization and reaffirming Egypt's position as a global cultural and heritage destination.

TEAM VISIT TO WARNER BROS. ABU DHABI

Design inspiration found a new spark at Warner Bros. World Abu Dhabi, where our team explored a universe of the great iconic characters, immersive environments, and world-class storytelling. The visit offered a close look at how creativity, technology , and design come together to craft nice, unforgettable experiences. Such magical moments energize our imagination, encouraging us to think beyond conventions and translate global design excellence into better spaces, richer experiences, and more meaningful designs in our everyday work.

REDEFINING MODERN OFFICES WITH GEBBWORK BY FURNICONCEPTS

Crafted with precision and built to meet rigorous industry market standards, Gebbwork products by Furniconcepts feature robust desks, versatile benching systems, efficient storage units, and intelligently designed workstations that support brilliant dynamic work environments.
