SHAPE OF SPACES

ITALIAN ELEGANCE AT ETISALAT HEAD QUARTERS, UAE

The VIP auditorium at Etisalat HQ, UAE now features premium seating by Audia Italia, expertly furnished to brilliance by Furniconcepts, blending comfort, elegance, and world-class design for an elevated experience.

EXPANDING EXCELLENCE AT INDEX OFFICE, BURJ DAMAN

Blending precision design and innovation, showcasing premium interiors, smart layouts, and seamless execution.

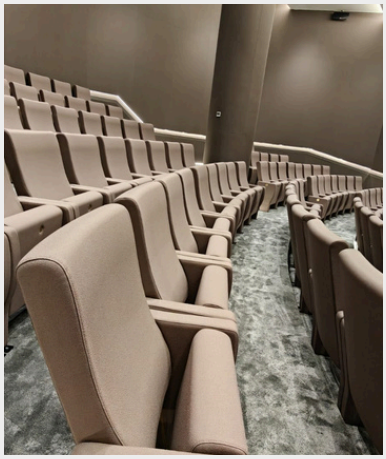

CELEBRATING CHINESE NEW YEAR, FEB 17TH 2026

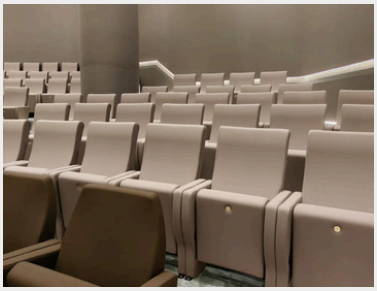

ITALIAN ELEGANCE AT ETISALAT HEAD QUARTERS, UAE

Where design becomes experience, sophistication takes its seat. The VIP auditorium at Etisalat Headquarters, UAE, furnished with premium seating by Audia Italia and delivered by Furniconcepts, redefines modern corporate spaces. Every element is thoughtfully crafted, from refined contours to ergonomic precision, ensuring unmatched comfort and style.

The tiered configuration guarantees seamless visibility, while the neutral palette enhances the architectural grace of the space. Blending aesthetics with mastered intelligent functionality, this

auditorium goes beyond conventional design. It stands as a powerful setting where leadership ideas emerge, innovation thrives, and meaningful conversations shape the future.

'TAMIL' FROM EGYPTIAN PHARAOH THRONES TO FUTURE WORKSPACES

A Tamil trader who travelled to Egypt around 2,000 years ago carved his name inside the rock-cut tombs of Egyptian pharaohs in the Valley of Kings, and the markings have now been identified by Swiss scholar Ingo Strauch.

The Tamil Brahmi inscriptions, found in eight places across five of the six tombs dated to 1600 BCE, offer fresh proof that ancient trade between India and the West was not one-sided but involved

long journeys and extended stays.

The Tamil Brahmi inscription reads "Cikai Korran." Cikai means tuft or crown, while Korran, read as Kotran, means leader.

The repeated appearance of the name inside the ancient tombs suggests that the visitor did more than just pass through Egypt's ports.

HOLY MONTH OF RAMADAN BEGINS

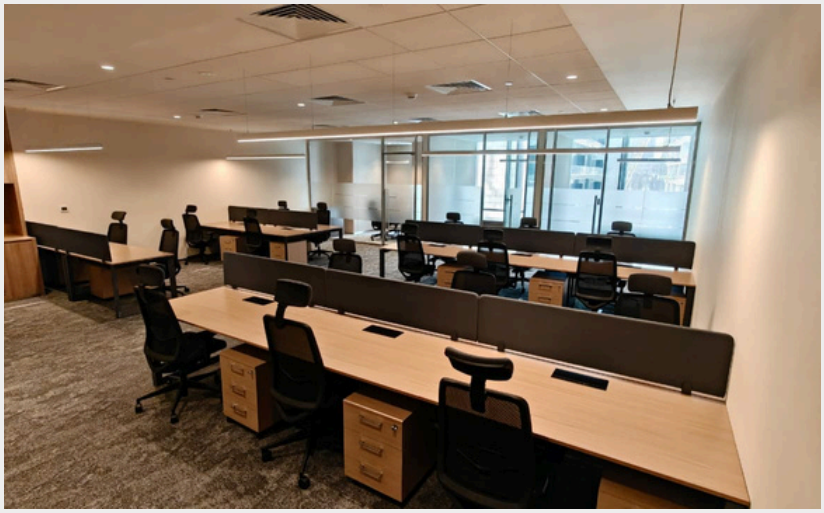

EXPANDING EXCELLENCE AT INDEX OFFICE, BURJ DAMAN

Another successful furnishing of the Index Office at Burj Daman, delivering a workspace that seamlessly blends design precision with functional innovation. The project showcases a modern corporate environment defined by clean lines, neutral palettes, and thoughtfully planned layouts.

The workspace features ergonomically designed workstations with integrated partitions, promoting both focus and collaboration, while maintaining visual continuity. Dedicated meeting zones and a sophisticated boardroom with premium finishes reflect a balance between comfort and professionalism. Intelligent cable management, optimized lighting, and efficient spatial planning further enhance usability and productivity.

Every detail within the space has been curated to align with the evolving needs of contemporary businesses. This project stands as a testament to Furniconcepts' dedicated commitment to delivering premium corporate interiors through seamless turnkey execution, combining aesthetics, functionality, and performance into one cohesive environment.

I truly enjoy and love transforming quiet office spaces into inspiring environments with the right furniture. From planning to execution, I make every step of the process memorable, collaborating with teams to create comfortable, stylish corners.
