FURNIJOURNAL

SHAPE OF SPACES

A WORKSPACE THAT MOVES WITH YOU

INSIDE THE AUGUST ISSUE

Projects, products, standards and national moments shaped a month focused on purposeful design.

EMERSON, CHENNAI

A seating solution shaped around comfort, support and everyday use.

BETTER STANDARDS

Three ISO certifications strengthen quality, environmental and safety systems.

TWO NATIONAL MOMENTS

India and Singapore celebrate identity, unity and shared progress.

A SEATING SOLUTION DELIVERED FOR EMERSON, CHENNAI

From requirement to execution, every detail was considered to create a seating solution that fits the need.

PROJECT DELIVERY

EVERY DETAIL SERVES A PURPOSE

FROM BRIEF TO DAILY USE

Good project seating begins before the chair is selected. It starts with understanding the user, the task, the hours of use and the character of the workplace. For Emerson, comfort, support and durability were balanced with a clean visual language.

The outcome is practical seating that feels considered in everyday use. The project also demonstrates the value of coordinating selection, supply and execution as one continuous process rather than treating furniture as the final item on a checklist.

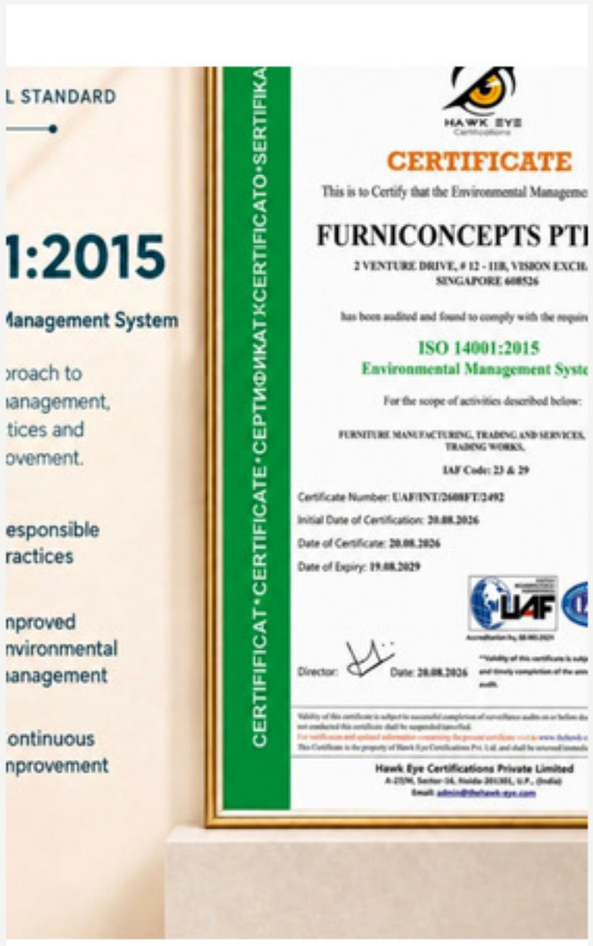

PROJECT NOTE

Designed for comfort, support and everyday ease.

THREE STANDARDS. ONE STRONGER SYSTEM.

Furniconcepts Pte. Ltd. achieved ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018, strengthening its commitment to quality, environmental responsibility and occupational health and safety.

ISO 9001:2015

QUALITY

Consistent processes, improved quality control and continual improvement.

ISO 14001:2015

ENVIRONMENT

Responsible practices and a structured approach to environmental management.

ISO 45001:2018

HEALTH & SAFETY

A systematic way to manage workplace health and safety risks.

CERTIFICATION IS NOT THE FINISH LINE

Its value appears in the habits it creates: clearer responsibilities, documented learning, measurable processes and a culture of review. Better standards support better delivery.

ONE COMMITMENT

FURNITURE MARKET: SCALE MEETS MOMENTUM

INDUSTRY OUTLOOK

WHY DOES CHINA LEAD THE FURNITURE MARKET?

China continues to lead through manufacturing scale, integrated supply networks and access to components across furniture segments. India, meanwhile, is building momentum through stronger production, growing startups and expanding demand.

CHINA

- Factory scale
- Integrated component supply
- Established export networks

INDIA

- Growing manufacturing
- Expanding startups
- Rising domestic demand

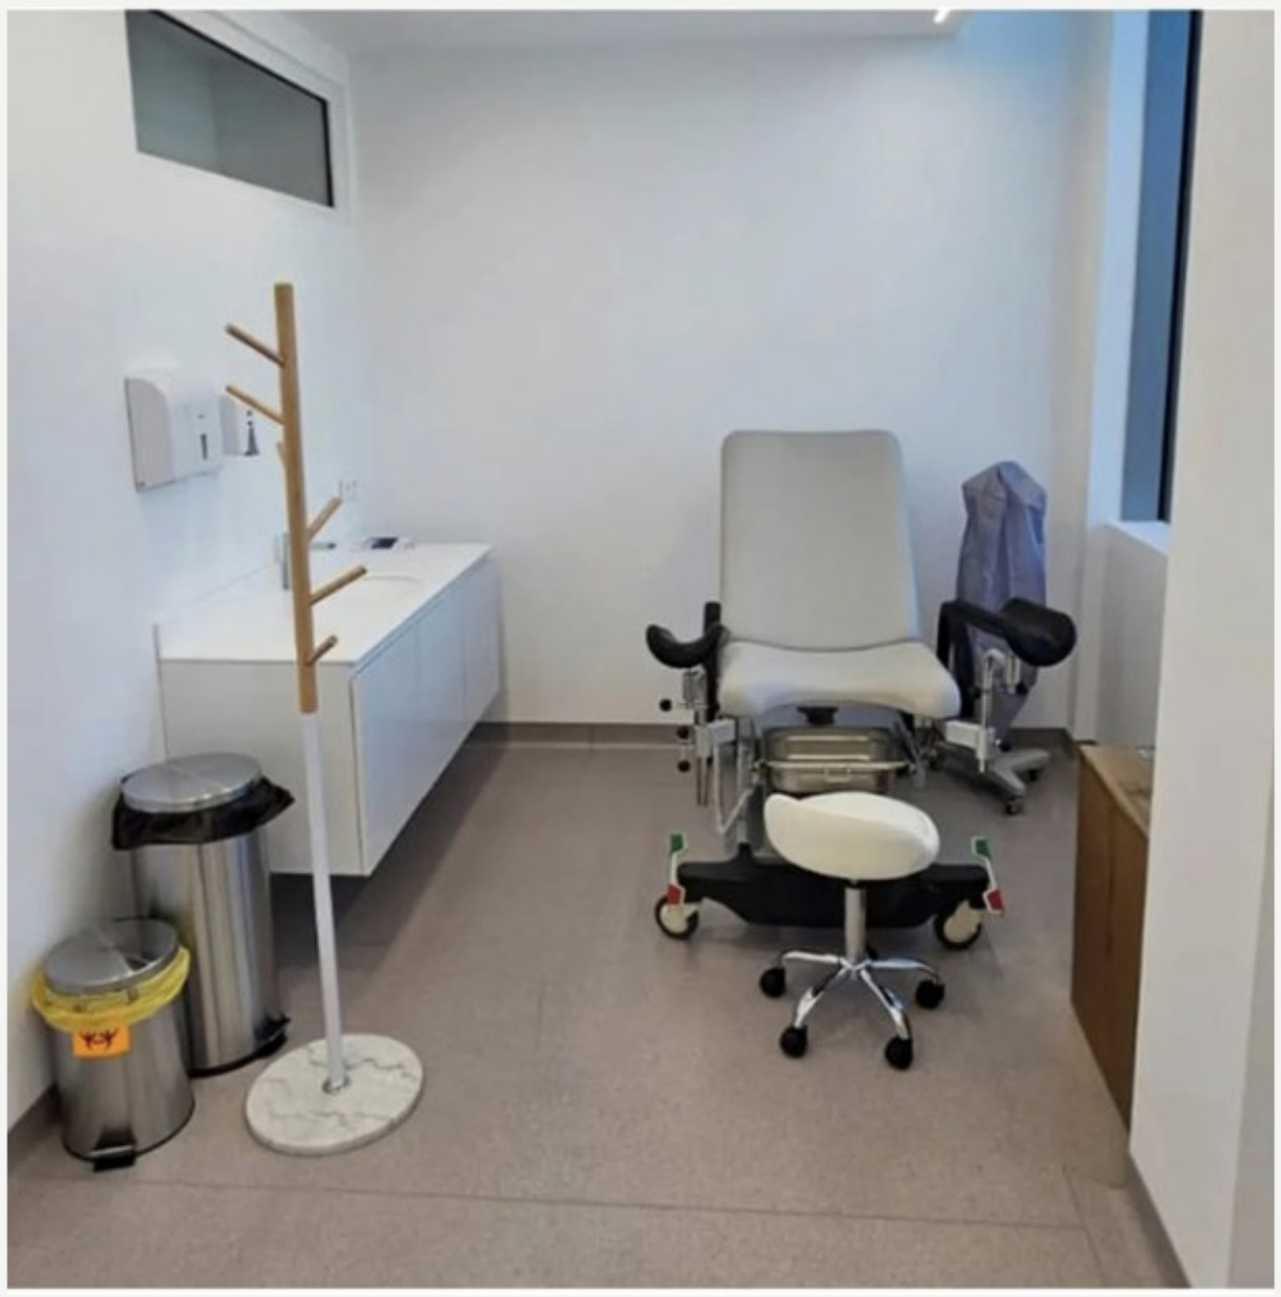

PRODUCT FOCUS

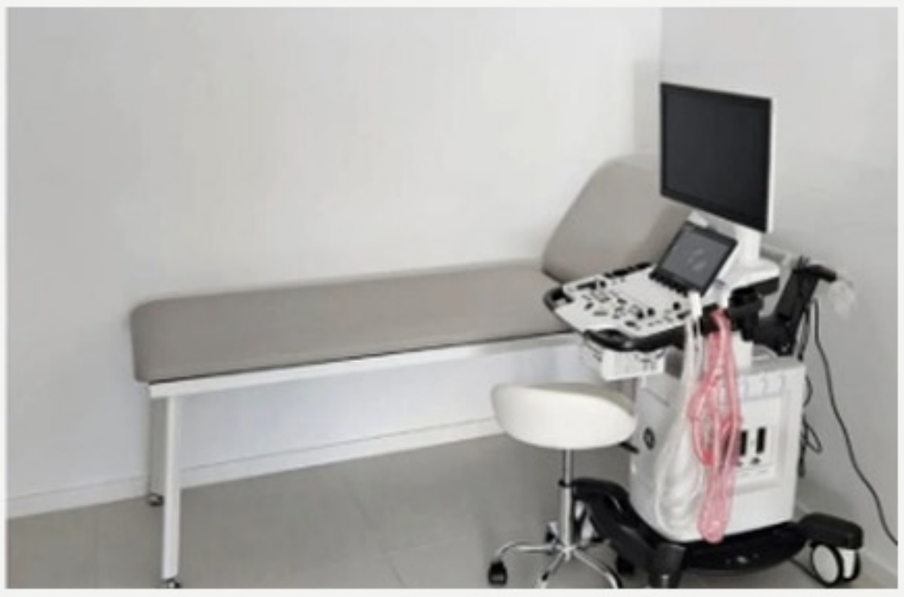

KINETIC WHITE: BUILT TO ADAPT

A height-adjustable desk gives users the freedom to change posture and working position through the day. The Kinetic White pairs warm wood surfaces with a clean white frame for a softer, refined workplace expression.

ADAPTABILITY | FOCUS | COMFORT

DESIGNED AROUND PEOPLE

HEALTHCARE

CARE BEGINS WITH THE ENVIRONMENT

At Sofia Airport, Bulgaria, specialised Nitrocare furniture supports functionality, clinical access and a professional atmosphere. In healthcare spaces, every surface, movement and dimension contributes to care.

ERGONOMIC SEATING

SETTLE IN. STAY SUPPORTED.

The Grey Shadow ergonomic chair is designed for better posture, easier focus and support that stays consistent from the first task to the last. Breathable mesh, a supportive back and adjustable elements help create a more comfortable working rhythm.

Comfort should support the work, not distract from it.

TWO NATIONS. SHARED VALUES.

August brought moments of reflection and celebration across two important Furniconcepts markets.

15 AUGUST 2026

INDIA INDEPENDENCE DAY

Celebrating the courage, unity and spirit that shaped freedom. The day honours sacrifice while looking ahead with confidence and shared purpose.

9 AUGUST 2026

SINGAPORE NATIONAL DAY

Sixty-one years of dreams and countless stories. Singapore moves forward through unity, resilience, compassion and hope.

ONE MORE SIGNAL FOR THE FUTURE OF FURNITURE

Gensler's 2025 workplace research found that employees in great workplaces are nearly three times more likely to stay. The message is clear: space is no longer only a backdrop. It is part of how organisations support people, culture and performance.
